- Mr. Maqsood is supported by a lean but able management team.
- The company has two management committees in place, namely (i) Executive Committee and (ii) Management Committee.

Business and Operational Risk

- Operations and maintenance of the plant is outsourced to Man Diesel and Turbo; the world's leading provider of large-bore diesel engines for marine and power plants.
- The company has long term contract with MAN diesel expiring in June21.
- Man Diesel Pakistan has been efficiently maintaining the plant availability, output, and efficiency level.
- APL has fuel supply arrangements with two suppliers namely Total Parco, and Attock Petroleum.

- Profitability of the company remained strong (9MFY17: 2,487mln, FY16: 3,144mln, FY15: 2,290 mln).

Financial Risk

- Debtors days increased despite improved payment behavior of power purchaser (9MFY17: 212days, FY16: 192days) which resulted in higher cash cycle (9MFY17 175days, FY16: 155days).
- Company's coverages remained strong though declined (FCFO/Gross Interest+CMLTD : 9MFY17: 1.4x, FY16: 1.8x) on the back of healthy FCFO and lower interest expense.
- Company's leveraging increased despite gradual repayment of project loan mainly due to significant increase in short term borrowing.

RATING RATIONALE

The ratings of APL reflect its strong financial profile. APL's good credit terms with fuel supplier and efficient inventory management has enabled it better management of debt repayments. Nevertheless, delayed payments from the power purchaser remained a challenge. Despite higher receivable days the entity managed to sustain its financial strength. Business risk is considered low exhibited by demand risk coverage under Power Purchase Agreement signed between NTDC and the company. The implementation agreement further provides sovereign guarantee for cashflows, given adherence to agreed performance benchmarks. The ratings incorporate low operational risk, a result of the performance of MAN Diesel Pakistan - the O&M operator. APL continues to meet its availability (88%) and efficiency (45%) benchmarks. APL has total long term debt of PKR 6,614mln as at end-Mar17 payable till October 2019. Sound financial profile of Atlas Group; the major sponsor, provides comfort to the ratings.

KEY RATING DRIVERS

Adherence to good financial discipline towards both financial and commercial obligations would remain important. Meanwhile, upholding strong operational performance in line with agreed performance levels remain important. Any significant increase in overdue receivables, in turn weakening in financial risk profile would be a concern.
