Rating Rationale and Key Rating Drivers

The ratings demonstrate Etimaad's strength, emanating mainly from its sustained operational history. Etimaad has delivered multiple, private infrastructure projects on standalone basis as well as in collaboration with different JV partners with completion spanned over a number of years. The pipeline is healthy; therein for the sake of sustainable long-term growth, management follows a balanced approach aiming to gain more share in different lines of businesses. The strength of the business is reflected in the clientele that the company has served and still continues to do business with, including some of the best and leading names of the business community. The entity is following a pyramid strategy; the top being mega projects (EPC), followed by construction and lastly maintenance related projects. Company follows a conservative approach on procurement of material while being involved in construction services. Hence hedging the fluctuation in raw material prices. Consequently, posting a limited topline. Overhead cost is being successfully covered with the re-occurring nature of O&M Contracts. The customer list portrays some of the best names in the domestic market. The Company has a track record of over a decade with strong capabilities in executing turnkey projects, as reflected in repeat orders from customers. The Company is adequately leveraged, undergone a conversion to Syndicated Financing, transitioning from Conventional Banking to Islamic Banking practices aligning with evolving market preferences and the organization's financial needs. The sponsors have demonstrated their commitment to operationally support the business by providing security and personal guarantees to obtain financial facilities.

The ratings are dependent on the sustainability of the business and its financial structure; sustaining a steady revenue stream and financial risk profile. Upcoming projects undertaken by management to streamline business for improved profitability are pivotal for considerable growth. Financial risk metrics need to be upheld. Meanwhile, strengthening of business development structure by inducting expert and experienced professionals is considered a key catalyst for upcoming projects.

Profile

Legal Structure Etimaad Engineering Private Limited (Etimaad), was incorporated in Pakistan under the repealed Companies Ordinance, 1984 as a private limited company on May 11, 2007.

Background Etimaad was established by a team of professionals from Descon Engineering Limited who are also the shareholders of the company. Over the years, the sponsors have established similar businesses mainly in Saudi Arabia (subsidiary) and Qatar (associate). In 2014, Etimaad had to divest its share in Arabian Etimaad Industrial Company, for an amount of SAR 5mln (PKR 133mln), due to geopolitical tensions at Yemen border and turmoil in oil prices. The company has completed various projects in Pakistan and overseas.

Operations The company is principally engaged in engineering, procurement, manufacturing, construction and project management activities.

Ownership

Ownership Structure Mr Mazharuddin Ansari's family directly own 37.4%, Mr Farooq Hussain Mughal 26.9%, Mr Mohammad Sohail Shafique 25.6% and others 10.1% stake in Etimaad.

Stability The experienced professionals of the company providing expertise and exposure to operate efficiently as one of the leading company in Pakistan.

Business Acumen The sponsors have rich industry experience and have worthy knowledge of various aspects of engineering industry.

Financial Strength The sponsors have an adequate financial profile. Although there is no explicit commitment, but key sponsor's support to Etimaad is demonstrated as they have provided personal guarantees to secure loans and guarantees from FIs.

Governance

Board Structure The company's board comprises only two members including the Chairman – Mr. Mohammad Sohail Shafique, and President & CEO – Mr. Farooq Hussain Mughal.

Members' Profile Mr. Mohammad Sohail Shafique, the Chairman, has more than two decades of experience in renowned organizations. He is an Engineer by profession and alumni of UET Lahore.

Board Effectiveness The Company being a private company does not comply with code of corporate governance. Both of the board members carry executive roles in the management of the company. To provide desired challenge to the management's decisions and strengthen overall governance framework, representation of independent director is important.

Financial Transparency Grant Thorton Anjum Rehman, Chartered Accountants, is the external auditor of the company. The auditor gave an unqualified opinion on the company's financial statements for the year ended June 30, 2022, audit of FY23 is in process.

Management

Organizational Structure There are a large number of reporting lines reporting in to CEO. Although this may limit strategic focus, support from senior executive members and Chairman, provides comfort.

Management Team Mr. Farooq Hussain Mughal, the President & CEO, is finance professional and associated with Etimaad since its inception. Previously he worked as CFO in Etimaad before he elevated to the position of President & CEO in FY15. He is supported by an able and competent team of professionals.

Effectiveness Majority of senior management has long ties with Descon Engineering Limited in the past. Project related hiring occurs as per the project's need; therefore Etimaad tries to recruit suitable technicians and proletariat. Syed Abrar Ali Khan, the Vice President of Etimaad, is appointed to strengthen the business development. Previously, Mr. Khan served as GM Descon-UAE Business Area.

MIS The company has an integrated financial, cost control and project management system to smooth sail the business processes from initiation to close and feedback phases. The ERP system includes modules on (i) ETest – Bid preparation, (ii) Primavera P6- Scheduling, monitoring the project and generation of reports, (iii) Tanseeb – Mtrix software linked to ETest to execute project activities and monitors the actual progress, (iv) EFin- Financial management system integrated with ETest and Primavera. (v) EOffice - facilitates company-wide information sharing.

Control Environment The EPC industry is always prone to Quality, Health, Safety and Environmental (QHSE) issues. Therefore, Etimaad complies with applicable laws and relevant industry standards.

Business Risk

Industry Dynamics The construction sector contributed almost PKR~1,848bln to the GDP of Pakistan in FY22 (FY21: PKR~1,409bln), registering a growth of ~31.1% YoY basis (~3% on real basis). The Sector's Contribution to GDP stands around 3% on average. Federal PSDP budget for FY22 was slashed to PKR~550bln from PKR~900bln originally budgeted, as Local and International Political and Economic Conditions worsened. In FY23 PKR~2,263bln was allocated for PSDP (PKR~800bln on Federal and PKR~1,463bln on Provincial Level). As of 8MFY23, ~50% of the federal allocated ~800bln got authorized/dispensed (8MFY22: ~43%). Industry margins are expected to shrink further, as End-Mar'23 prices of construction materials have jumped by ~38% YoY and labor wages have risen by ~19% YoY.

Relative Position Etimaad is eyeing for optimal growth both in terms of turnover and profitability through a better mix of construction and maintenance projects. Company now takes appropriate measures to avoid any discrepancy in the projects while ensuring timely completion of the project. However, the market share of the company remains minimal.

Revenues During FY23, the revenue of the Company improved owing to the new projects awarded and executed during said period and also with the sharp increase in the cost of raw material which translates significantly into the revenues. Secondly, the topline witnessed a increase of 6% as at end-June 23 (end-June22: 27.5%). This shows the strength of Etimaad that despite adverse business and economic indicators the Company has managed to acquire new business and continued the growth pattern.

Margins During FY23, given the challenging economic environment and highly competitive nature of the industry, the Company was largely able to maintain gross margins at 21.7% during FY23 (FY22: 21.5%) due to higher revenue contribution. The decrease in PBIT margins of the Company 4.7% (FY22: 6%) was because of an increase in finance cost to PKR 77mln (FY22: PKR 51mln). In FY23, increased topline translated into a bottom line of PKR 83mln (FY22: PKR 99mln).

Sustainability Etimaad's management envisage sustainable footing in the market by planning to move to capital market instead of money market for financing needs in near future. The performance of the company rests with projects in hand and timely completion. The healthy pipeline; therein for the sake of sustainable long term growth, management follows a balanced approach aiming to gain more share in different lines of businesses.

Financial Risk

Working Capital The working capital of the Etimaad's working capital is mainly supported by short term borrowings and internal cash. During FY23, Etimaad's net working capital cycle days slightly increased and stands at 177days (FY22: 162days) owing to increase in trade receivable and inventories days. To fulfill the needs of working capital, company has availed short term borrowings from various financial institutions worth PKR 379mln in FY23 (FY22: PKR 232mln; FY21: PKR 30mln).

Coverages In FY23 Etimaad's free cash flows (FCFO) denotes performance stability, and improved to PKR 306mln (FY22: PKR 215mln; FY21: PKR 188mln). Despite the increase in cash flows company's core debt coverage deteriorated as compared to FY22 (4.2x) and stands at 4.0x on account of increase in short-term borrowings.

Capitalization Etimaad has adequately managed its leveraged capital structure. Debt to debt plus equity ratio stands at 23.7% at end-FY23 and effectively managed since FY20 (33%). However, due to limited cash flows, the loans are jointly secured by sponsors' guarantees.

Credit Rating

Credit rating reflects forward-looking opinion on credit worthiness of underlying entity or instrument; more specifically it covers relative ability to honor financial obligations. The primary factor being captured on the rating scale is relative likelihood of default.

Scale	Long-term Rating Definition
AAA	Highest credit quality. Lowest expectation of credit risk. Indicate exceptionally strong capacity for timely payment of financial commitments
AA+	
AA	Very high credit quality. Very low expectation of credit risk. Indicate very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.
AA-	
A+	
A	High credit quality. Low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be vulnerable to changes in circumstances or in economic conditions.
A-	
BBB+	
BBB	Good credit quality. Currently a low expectation of credit risk. The capacity for timely payment of financial commitments is considered adequate, but adverse changes in circumstances and in economic conditions are more likely to impair this capacity.
BBB-	
BB+	
BB	Moderate risk. Possibility of credit risk developing. There is a possibility of credit risk developing, particularly as a result of adverse economic or business changes over time; however, business or financial alternatives may be available to allow financial commitments to be met.
BB-	
B+	
B	High credit risk. A limited margin of safety remains against credit risk. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.
B-	
CCC	
CC	Very high credit risk. Substantial credit risk "CCC" Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic developments. "CC" Rating indicates that default of some kind appears probable. "C" Ratings signal imminent default.
C	
D	Obligations are currently in default.

Scale	Short-term Rating Definition
A1+	The highest capacity for timely repayment.
A1	A strong capacity for timely repayment.
A2	A satisfactory capacity for timely repayment. This may be susceptible to adverse changes in business, economic, or financial conditions.
A3	An adequate capacity for timely repayment. Such capacity is susceptible to adverse changes in business, economic, or financial conditions.
A4	The capacity for timely repayment is more susceptible to adverse changes in business, economic, or financial conditions. Liquidity may not be sufficient.

*The correlation shown is indicative and, in certain cases, may not hold.

Outlook (Stable, Positive, Negative, Developing) Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. 'Stable' outlook means a rating is not likely to change. 'Positive' means it may be raised. 'Negative' means it may be lowered. Where the trends have conflicting elements, the outlook may be described as 'Developing'.

Rating Watch Alerts to the possibility of a rating change subsequent to, or, in anticipation of some material identifiable event with indeterminable rating implications. But it does not mean that a rating change is inevitable. A watch should be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating watch may accompany rating outlook of the respective opinion.

Suspension It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn.

Withdrawn A rating is withdrawn on a) termination of rating mandate, b) the debt instrument is redeemed, c) the rating remains suspended for six months, d) the entity/issuer defaults, or/and e) PACRA finds it impractical to surveil the opinion due to lack of requisite information.

Harmonization A change in rating due to revision in applicable methodology or underlying scale.

Surveillance. Surveillance on a publicly disseminated rating opinion is carried out on an ongoing basis till it is formally suspended or withdrawn. A comprehensive surveillance of rating opinion is carried out at least once every six months. However, a rating opinion may be reviewed in the intervening period if it is necessitated by any material happening.

Note. This scale is applicable to the following methodology(s):
 a) Broker Entity Rating
 b) Corporate Rating
 c) Debt Instrument Rating
 d) Financial Institution Rating
 e) Holding Company Rating
 f) Independent Power Producer Rating
 g) Microfinance Institution Rating
 h) Non-Banking Finance Companies Rating
