#### Rating Rationale and Key Rating Drivers

The ratings reflect Ismail Industries Limited's ('Ismail Industries' or 'the Company') strong presence in confectionery, biscuits and plastic film manufacturing through established brands (Candyland, Bisconni, Snackcity and Astro Films). Growing middle class, coupled with timely capacity enhancements, have led to significant growth in revenues of the Company in the recent past. The ratings draw strength from the Company's diversified revenue stream, supported by the plastic film manufacturing segment. The Company has been able to sustain growth in revenues, owing to aggressive marketing campaigns and introduction of new food products despite challenges faced by the Company amidst the pandemic. The Company's expansion projects were met by delays; However, sustained growth momentum and increase in export and local sales, highlights the Company's strong business profile. The Company's margins remained strong at the gross level, despite cost-push inflation and rupee depreciation. However, higher share of profit was received from the associate company resulting in significant growth in the bottom-line. The Company having relatively high market share and brand recognition is anticipated to sustain the growth momentum. Furthermore, Ismail Industries' strategic investments in its associated companies is expected to further provide additional cushion to the bottom-line, going forward. Meanwhile, despite a leveraged capital structure, the Company maintains a strong financial profile, through strong working capital management and adequate coverages.

The ratings are dependent on continued revenue growth and maintenance of margins. Prudent management of expansion and investment-related debt in order to meet financial obligations will be important. Decline in coverages and/or erosion of margins may adversely impact the ratings.

**Industry Dynamics** The confectionery, biscuits and snacks industry in Pakistan is largely dominated by domestic players and is highly price elastic. Post Covid-19, the food industry remains exempted from lockdown implemented by the Government. However, there was a detrimental impact on demand of non-essential food products due to the lockdown as schools, shops and Malls remained closed. The measures announced by SBP, including rate cut of 625bps, eased some pressure.

**Relative Position** Ismail Industries is one of the leading players in the industry. Its flagship brand 'Candyland' is the market leader in the confectionery segment. The 'Bisconni' brand is the third-largest in the biscuit segment while 'Snackcity' is one of several players in the snacks segment who trail the market leader 'Lays'. 'Astro Films' is a major player in the film packaging segment.

**Outlook (Stable, Positive, Negative, Developing)** Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. ‘Stable’ outlook means a rating is not likely to change. ‘Positive’ means it may be raised. ‘Negative’ means it may be lowered. Where the trends have conflicting elements, the outlook may be described as ‘Developing’.

**Rating Watch** Alerts to the possibility of a rating change subsequent to, or, in anticipation of some material identifiable event with indeterminable rating implications. But it does not mean that a rating change is inevitable. A watch should be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating watch may accompany rating outlook of the respective opinion.

**Suspension** It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn.

**Withdrawn** A rating is withdrawn on a) termination of rating mandate, b) the debt instrument is redeemed, c) the rating remains suspended for six months, d) the entity/issuer defaults., or/and e) PACRA finds it impractical to surveil the opinion due to lack of requisite information.

**Surveillance.** Surveillance on a publicly disseminated rating opinion is carried out on an ongoing basis till it is formally suspended or withdrawn. A comprehensive surveillance of rating opinion is carried out at least once every six months.
