Rating Rationale and Key Rating Drivers

The ratings reflect Allawasaya Textile and Finishing Mills Limited’s (the Company) association with three industrial families of Multan and demonstrated support of sponsors. Sponsors have presence in the oilseed extraction industry and other segments of textile value chain. The Company is involved in the manufacturing and sale of PC Yarn, PV Yarn which is man-made fiber & CVC Yarn. The Company’s displayed improvement in the revenues in 1HFY21 is due to attributable to recent BMR. Margins witnessed uptick as at end-Dec20 (gross: 8.2%; operating: 5.5%) on the back of improved prices. Hence, the Company recorded a net profit of PKR 15mln in FY20 (FY19: PKR -16mln); the positive trend should continue. The financial risk matrix performed well, comprising low leveraged capital structure along with maintained coverage. Going forward, the Company is planning to acquire debt to finance CAPEX. Material improvement in cash flows in line with upcoming debt obligations remains imperative.

The outlook of the Company is 'stable' as the company resumed operations and continued its business fundamentals after resumption of operations post July 20. The Rating Watch signifies the prevailing uncertainty due to the ongoing challenges of COVID-19 pandemic. While the business continues to function, there is need to remain vigilant. Textile industry dynamics are prove to challenges posed by third wave of COVID-19 pandemic. Exports front witnessed dilution in last two months of CY21.Trend of exports orders will determine stability in sector’s outlook in the medium term.

The ratings are dependent upon the sponsor support and management's ability to improve margins, profitability and the Company’s competitive position in the industry. This includes keeping the debt levels manageable. Any further deterioration in margins or coverages will have a negative impact on the ratings.

Background The Company was incorporated in 1958 as a private limited Company. It was converted into a public limited Company in 1965. The Company is engaged in the production and sale of cotton yarn and manmade fibers and has since expanded both its operations and clientele.

Operations The primary business of the Company is blended polyester cotton yarn (52:48) & CVC (60:40) count range 10 – 40. These qualities of Yarn are produced by using Pakistani Cotton and Polyester in accordance with customer satisfaction. For this purpose, the core business activity is cotton spinning. Functioning with one manufacturing units, the total number of spindles installed is 38,232 spindles.

Ownership

Ownership Structure The Company is owned by three established business families of Multan. Namely i) Tauqir Family (38%) ii) Jamil Family (36%) and Maqbool Family (25%).

Stability The sponsor families are all related and the third generation of the Jamil and Tauqir families has already joined the Company. However, no formal succession plan has been documented.

Business Acumen Besides Allawasaya Textile & Finishing, the Maqbool family has stake in several other businesses including textile, seed oil extraction and hospitality. Both the CEO and the Chairman have served as the president of the Multan Chamber of commerce and are still associated with it. Mian Tauqir Ahmad is a USA qualified Mechanical engineer with 34 years of experience in garment retail, oil extraction and other textile businesses.

Financial Strength Out of three sponsor families, i) Maqbool Family has investments in other textile companies and hospitality sector, ii) Tauqir family has a diverse portfolio of investments in a number of other textile companies and the iii) Jamil family has a 100% stake in Allawasaya Spinning Mills Pvt Ltd. Cumulatively, the sponsors have enough financial strength to support the Company, if a need arises.

Governance

Board Structure Eleven-member board is comprised of representatives from sponsor families and two independent directors. Despite a good mix of executive and nonexecutive members, sponsor domination on the board undermines the governance structure. Mrs. Nusrat Jamil, a member of Jamil family is the Chairman of the board.

Members' Profile All the board members are highly qualified in different disciplines and carry ample experience in textile as well as other industries. Chairman, Mrs. Nusrat Jahan, has been affiliated with the board for two years. Mian Jamil (Jamil Family) is a textile engineer and carries 45 years of industry experience. Mian Tanvir Ahmad Sheikh (Maqbool Family) has an overall experience of over 36 years. Mian Tauqir Ahmed Sheikh (Tauqir Family) is an MBA and acts as a non-executive director on the board. Other board members also possess years of industry relevant experience.

Board Effectiveness In line with the guidelines of the corporate governance best practices, the board is supported by an i) Audit Committee and ii) HR & Remuneration committee. However, the quality of board minutes still has room for improvement.

Financial Transparency Deloitte M/S Yousaf Adil & Co, Chartered Accountants are the external auditors of the Company. The auditors have issued an unqualified opinion on the company's financial statements for the periods ended on 30th June 2020. They have performed an interim review on the financial statements for the six months ending December 2020.

Management

Organizational Structure The organization structure of the Company is divided into four main departments namely i) Finance, Admin & Procurement ii) Audit & Planning iii) Sales & Marketing and iv) Production. The Chairman overseas production while the CEO looks after finance, admin & procurement. All other departments are headed by executive directors.

Management Team Mian Tanvir, the Company's CEO did his MBA from USA and has diverse professional experience, spanning over 38 years. All other members of the management team are also well qualified and experienced.

Effectiveness All department heads have access to MIS to generate reports, relevant to their departments. Management frequently meets to discuss any issues affecting the smooth flow of business operations, however, there are no management committees.

MIS The Company has developed an in-house ERP system to cater to the needs of the business. Senior management, including the CEO and Chairman monitor the business performance through certain key MIS reports.

Control Environment Production is completely order driven. The QC and HSE departments seem appropriate. The Company is ISO 9001 and ISO 14001 certified.

Business Risk

Industry Dynamics Textile Sector has depicted an overall growth of approximately 8% (USD value terms) in the exports in first six months of the fiscal year 2021 where knitwear, bed wear and towels segments recorded highest growth of 16.5%, 16.3% and 17.4% respectively. Knitwear, readymade garments, bed wear and cotton cloth segment combined have achieved almost 9% growth over the same period last year excluding cotton cloth which has experienced a decline. Towel and made-up articles both recorded growth of 17% each. In Pak Ruppee terms, the overall growth by textile exports has been recorded at around 13%. Covid-19 pandemic and related lock down imposed by the governments around the globe in FY20 had its ramifications however Pakistani textile exports have been seen rebounding in 1HFY20. Excluding knit wear and yarn, all other segments recorded incline in prices (USD terms) which is positive. The export outlook is likely to remain stable in the medium term as textile units have been operating at optimized capacity levels.

Relative Position With 38,712 operational Spindles, Allawasaya Textile and Finishing's position in Pakistan Spindle capacity is considered small. The Company plans to carry out a BMR to add 12,000 more Spindles to its existing capacity.

Revenues During FY20, the Company's revenue showed an increase of 27% and clocked in at PKR 2,657mln (FY19: PKR 2,091mln) due to the installation of BMR. The Company's revenues wholly comprise local yarn sales with adequate customer concentration. On the other side Company also improved its revenues in the 1HFY21 by 18% stood at PKR 1,656mln.

Margins During FY20, the Company's gross profit margin witnessed improvement from FY19 to 6.7% (FY19: 4.7%) and operating profit margin to 3.9% (FY19: 1.3%) due to lower personnel cost, higher revenue. The finance cost of the Company increased to PKR 78mln in FY20 (FY19: PKR 37mln). The Company recorded a net profit of PKR 15mln (FY19: PKR -16mln), indicating an improving trend in profitability. During 1HFY21, the Company's gross profit margin and operating profit margin also increased from FY20 to 8.2% and 5.5% respectively.

Sustainability In line with improving the business environment, the Company is planning to start a CAPEX, which will add 12,000 Spindles to existing capacity and also installing NCS machines. CAPEX is expected to bring in efficiency gains, lowering cost per spindle, and will consequently improve margins.

Financial Risk

Working Capital During FY20, the Company's working capital requirement has deteriorated which is evident from the increase in net working capital days (FY20: 64 days, FY19: 61days). The reasons behind this increase were the higher amount of inventory PKR 538mln and trade receivables PKR 8mln. During 1HFY21, the Company's net working capital days slightly increase to 66 days. Furthermore, the short-term trade level also increased (1HFY21: 36%; FY20: 15%).

Coverages The company's cash flows from operations – a factor of its profitability has witnessed a significant increase (FY20: PKR 124mln, FY19: PKR 20mln) because the Company made a net profit in the period. This impact showed positivity on the coverages immensely, with interest coverage ratio during FY20 rise up to 1.6x (FY19: 0.6x) and debt coverage ratio to 1.2x (FY19: 0.3x). However, during 1HFY21, coverages also improved, with the interest coverage ratio clocking at 3.4x and the operating coverage ratio to 1.1x due to the decrease in finance cost.

Capitalization The Company's leverage increased during FY19 to 39.6% (FY19: 32.4%), mainly due increase in its borrowings. Short-term borrowings, which make up 62% of the total borrowings (FY20: PKR 724mln, FY19: PKR 521mln) increased to PKR 514mln (FY19: PKR 326mln), and long term borrowings clocked in at PKR 179mln (FY19: PKR 173mln). During 1QFY21, Company's leverage witnessed a decrease and was recorded at 37.2%.

Credit Rating

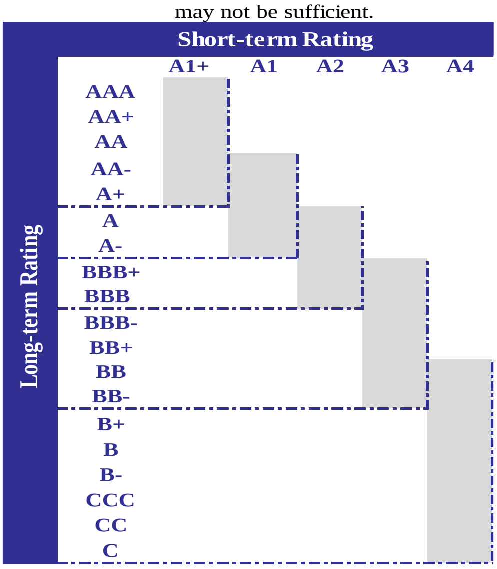
Credit rating reflects forward-looking opinion on credit worthiness of underlying entity or instrument; more specifically it covers relative ability to honor financial obligations. The primary factor being captured on the rating scale is relative likelihood of default.

Long-term Rating

Scale	Definition
AAA	**Highest credit quality.** Lowest expectation of credit risk. Indicate exceptionally strong capacity for timely payment of financial commitments
AA+ AA AA-	**Very high credit quality.** Very low expectation of credit risk. Indicate very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.
A+ A A-	**High credit quality.** Low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be vulnerable to changes in circumstances or in economic conditions.
BBB+ BBB BBB-	**Good credit quality.** Currently a low expectation of credit risk. The capacity for timely payment of financial commitments is considered adequate, but adverse changes in circumstances and in economic conditions are more likely to impair this capacity.
BB+ BB BB-	**Moderate risk.** Possibility of credit risk developing. There is a possibility of credit risk developing, particularly as a result of adverse economic or business changes over time; however, business or financial alternatives may be available to allow financial commitments to be met.
B+ B B-	**High credit risk.** A limited margin of safety remains against credit risk. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.
CCC CC C	**Very high credit risk.** Substantial credit risk "CCC" Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic developments. "CC" Rating indicates that default of some kind appears probable. "C" Ratings signal imminent default.
D	Obligations are currently in default.

Short-term Rating

Scale	Definition
A1+	The highest capacity for timely repayment.
A1	A strong capacity for timely repayment.
A2	A satisfactory capacity for timely repayment. This may be susceptible to adverse changes in business, economic, or financial conditions.
A3	An adequate capacity for timely repayment. Such capacity is susceptible to adverse changes in business, economic, or financial
A4	The capacity for timely repayment is more susceptible to adverse changes in business, economic, or financial conditions. Liquidity may not be sufficient.



The correlation shown is indicative and, in certain cases, may not hold.

Outlook (Stable, Positive, Negative, Developing) Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. 'Stable' outlook means a rating is not likely to change. 'Positive' means it may be raised. 'Negative' means it may be lowered. Where the trends have conflicting elements, the outlook may be described as 'Developing'.

Rating Watch Alerts to the possibility of a rating change subsequent to, or, in anticipation of some material identifiable event with indeterminable rating implications. But it does not mean that a rating change is inevitable. A watch should be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating watch may accompany rating outlook of the respective opinion.

Suspension It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn.

Withdrawn A rating is withdrawn on a) termination of rating mandate, b) the debt instrument is redeemed, c) the rating remains suspended for six months, d) the entity/issuer defaults., or/and e) PACRA finds it impractical to surveill the opinion due to lack of requisite information.

Harmonization A change in rating due to revision in applicable methodology or underlying scale.

Surveillance. Surveillance on a publicly disseminated rating opinion is carried out on an ongoing basis till it is formally suspended or withdrawn. A comprehensive surveillance of rating opinion is carried out at least once every six months. However, a rating opinion may be reviewed in the intervening period if it is necessitated by any material happening.
