#### Rating Rationale and Key Rating Drivers

Secure Logistics Group (Private) Limited is a growing company engaged in logistics, vehicle management and tracking services. The company has expanded its operations especially in the fleet management domain. The number of vehicles have increased while diversification in terms of type of services have been achieved. The expansion strategy is expected to continue. This was enabled by the vision of the management, which helped in the garnering of fresh capital from known investment houses. The Covid-19 was a challenge and hence it impacted the operations and profitability. Despite this, the company managed to report profitability. The future is prosperous, of which the implications are being evaluated. This could be positive for the trajectory of ratings. The management has a conservative appetite as to borrowings. Having further clarity as to this is also considered positive. The envisaged path is growth in both lines of business, with less reliance on the borrowed funds. Multiple initiatives are being taken to augment the governance and control environment. The governance framework took positive direction as the representative of other shareholders joined the board. This augurs well for the company. The risk absorption capacity and liquidity is expected to help the company in the days to come.

The sector is, however, constrained by the inherent limitations pertaining to the logistics industry emanating from the fragmented nature of the sector and dependence on economic activity. The company has ventured into new segments which will further diversify the revenue base while increased business in the form of new clients is on the horizon. The growth path is defined and ambitious, however, the management is confident to achieve it.

The ratings are dependent on sustained business profile while ensuring profitability, enhanced corporate governance and control environment. The upholding of fiscal discipline is an essential feature.

**Outlook (Stable, Positive, Negative, Developing)** Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. ‘Stable’ outlook means a rating is not likely to change. ‘Positive’ means it may be raised. ‘Negative’ means it may be lowered. Where the trends have conflicting elements, the outlook may be described as ‘Developing’.

**Rating Watch** Alerts to the possibility of a rating change subsequent to, or, in anticipation of some material identifiable event with indeterminable rating implications. But it does not mean that a rating change is inevitable. A watch should be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating watch may accompany rating outlook of the respective opinion.

**Suspension** It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn.

**Withdrawn** A rating is withdrawn on a) termination of rating mandate, b) the debt instrument is redeemed, c) the rating remains suspended for six months, d) the entity/issuer defaults., or/and e) PACRA finds it impractical to surveil the opinion due to lack of requisite information.

**Harmonization** A change in rating due to revision in applicable methodology or underlying scale.

**Surveillance.** Surveillance on a publicly disseminated rating opinion is carried out on an ongoing basis till it is formally suspended or withdrawn. A comprehensive surveillance of rating opinion is carried out at least once every six months. However, a rating opinion may be reviewed in the intervening period if it is necessitated by any material happening.
