Rating Rationale and Key Rating Drivers

The Pakistan International Bulk Terminal Limited ("PIBT" or "the Company") has secured a distinguished position in its operating segment due to its strategic importance in the Power and Cement sector. With a fully automated infrastructure, the Company's annual capacity hovers around 12 million MT for inbound coal handling and 4 million MT of outbound clinker and cement handling. The demand for imported coal in the industry is significantly reduced due to macroeconomic conditions including but not limited to import restrictions, severe devaluation of PKR against USD, and slowdown of economic activities resultantly demand from cement and power sector players switched to local or Afghani coal. Therefore the volumes handled by PIBT significantly dropped. During 9MFY23, PIBT handled 3.8mln tons of cargo against 6.2mln tons in the same period last year (FY22: 8.2mln tons, FY21: 10.1mln tons). Amid declining volumes, PIBT topline clocked at PKR 6.9bln (9MFY22: PKR 7.4bln). The bottom line of PIBT turned red and posted a net loss of PKR 2.5bln (9MFY22: loss of PKR 151mln, FY22: loss of PKR 991mln). The loss is majorly due to the impact of currency devaluation on USD denominated foreign loans. FCFOs of the Company are also affected impairing the ability to service its debt in timely manner. In view of the prevailing economic conditions, the Company requested its foreign lenders International Finance Corporation (IFC) and OPEC Fund for International Development (OFID) to defer the payment of its principal installments due in Jun-23 as notified on PSX, notice dated 15-Jun-23. The formalization of this arrangement is in process and expected to finalize soon. However, the Company ensures to make interest repayments in a timely manner. Obligations towards local financing arrangements will continue to remain as per agreed terms. While, the management provides comfort that the volumes will rebound, consequently improving the financial position of the Company.

Developing outlook and rating watch reflect the ongoing development towards the finalization of re-profiling arrangements with the foreign lenders as requested by the Company. Timely conclusion of the arrangements remains imperative for holding the ratings of the Company.

The Pakistan Credit Rating Agency Limited

Profile

Legal Structure Pakistan International Bulk Terminal Limited, herein referred to as "PIBT" or "the Company", was incorporated in 2010. It was listed on the Pakistan Stock Exchange in 2013.

Background PIBT was incorporated under the Companies Ordinance, 1984 (now the Companies Act, 2017) in March 2010 as a wholly-owned subsidiary of Pakistan International Container Terminal Limited (PICT). The Company is a part of the "Marine Group of Companies" that has a network of 15 related companies under its umbrella. Premier Mercantile Services (Pvt.) Ltd. (PMS) is the flagship company of the group.

Operations In 2010, the company entered into a Built Operate Transfer (BOT) contract with Port Qasim Authority (PQA) for the construction, development, operations and management of a coal and clinker/cement terminal at Port Muhammad Bin Qasim. The contract is for a period of thirty years. The company commenced its commercial operations in July 2017. PIBT has the annual capacity to handle -12mln tons of coal import and -4mln tons of cement/clinker export.

Ownership

Ownership Structure Premier Mercantile Services (Private) Limited is the major shareholders of the company and hold -43.3%. General public holds -41.46% of the shareholding of the company. Premier Mercantile Services (Private) Limited is the investment arm of the Marine Group of companies.

Stability Initially, the company was a wholly owned subsidiary of PICT, which at that time was owned by the Marine Group and other companies. The company's shareholding has evolved over the period, and is expected to remain stable, going forward.

Business Acumen The Marine Group of companies is a large and diversified cargo handling and logistics group in Pakistan. The group has been in business since 1964. Considering its operating history and experience in the business, sponsors' understanding of the terminal handling business is considered strong.

Financial Strength Premier Mercantile Services - the major shareholder, is an investment wing of the Marine Group. It also has investments in other group companies.

Governance

Board Structure The Board of Directors consists of seven members, which include two independent, three non-executive and two executive directors.

Members' Profile Capt. Haleem Ahmad Siddiqui, the Chairman of the Board of Directors, is a seasoned professional of the industry. He has an experience of over five decades. He is also the Chairman of Marine Group of Companies. Capt. Siddiqui has served in the Pakistan Flag Vessel and was instrumental in establishing the Marine Group of Companies. Other members of the Board are also highly qualified professionals and have sufficient experience in managing the company's affairs.

Board Effectiveness Two subcommittees on the Board exist; (i) Audit Committee & (ii) HR & Remuneration Committee. Adequate attendance was noted in the Board and its sub-committees' meetings while minutes have been properly documented.

Financial Transparency The external auditors of the company are M/s EY Ford Rhodes & Chartered Accountants, one of the big four firms. It is QCR rated and part of the category A, as per the State Bank of Pakistan's panel of auditors. It expressed an unqualified opinion on the financial statements for FY22.

Management

Organizational Structure A well-defined yet lean organizational structure exists. The organization is split into three broad divisions; (i) Operations (ii) Engineering and (iii) Support. Among these divisions, functions are segregated into various departments wherein clear lines of responsibility are defined for each cadre. The company's head office is situated in Karachi city, while terminal is situated at Port Qasim. Responsibilities are clearly divided among different departments heads.

Management Team Mr. Sharique Azim Siddiqui - the CEO of the company, has an overall experience of more than two decades. He did his Masters of Arts in Economics from Tufts University, Boston, USA. He has also served as a Director Project and Chief Operating Officer at PICT and was in-charge of container terminal project planning, coordination, and implementation. He is supported by an experienced and able management team.

Effectiveness All department heads are responsible for management of their departments. Mr. Asad Zaidi manages the operations division, whereas engineering related matters are handled by Mr. Basit Alvi, GM Engineering. Mr. Arsalan Iftikhar Khan, a qualified Chartered Accountant, is the CFO of the company.

MIS Fully mechanized infrastructure with a robust MIS, to assist reporting needs of the management, strengthens the control environment.

Control Environment The corporate structure of the company is diverged into various departments, each having an effective Internal Control System. MIS and technological infrastructure is strong with a high degree of automation, positively impacting the overall control environment of the company.

Business Risk

Industry Dynamics Total country demand for imported coal hovers in the range from 13mln MT to 16mln MT per annum and is majorly generated from the power plants and cement sector that depend on imported coal. The lately undertaken capacity expansions by cement players are expected to come into play and increase demand of both local and imported coal. In light of the government's initiative to reduce the import bill, a shift towards locally supplied coal remains a risk.

Relative Position Following suspension of coal handling services at Karachi Port Trust (KPT), PIBT has the privilege of being the only commercial terminal operator for providing handling services to local coal importers. Hence, it is well poised to increase its market share, unless competition in the market is instigated. A recent dismissal, by the Supreme Court of Pakistan, of the review petition (dated 24th December 2019) regarding the suspension, bodes well for the long term outlook of the company.

Revenues The company, during the period 3QFY23, recorded a revenue of PKR 6.83bln (down by 8.5% as compared to same period last year). Similar trend is observed at end FY22. This downward volume trajectory is attributable to lower volumes handled i.e., FY22: 8.2mln tons (down by 18% as compared to same period last year). Most of the revenue is being generated from coal handling services and the portion of clinker and cement handling is negligible.

Margins Although gross profit margins for 3QFY23 are 16.1% (3QFY22: 25.8% FY22: 26.8%) but negative trend is noted in the net profit margins (3QFY23: -37.8%, 3QFY22: -2% FY22: -9.4%). A major reason for this dip is the exchange losses amounting to PKR 2.2bln during 3QFY23 (3QFY22: PKR 1.5bln, FY22: PKR -1,649mln) that are putting pressure on the bottom line.

Sustainability Due to adverse economic conditions, FY22 has been a slow year for the Company as well especially last quarter. Although demand is expected to gain momentum in summer season. That coal and import of Afghan coal by road might adversely affect the volumes handled by PIBT.

Financial Risk

Working Capital PIBT's working capital requirement mainly emanates from financing trade receivables, for which it mostly relies on its internal cash flows. Company's. Gross working capital days in 3QFY23 stood at 28 days (FY22: 34 days, FY21: 32days). The same has been adjusted with trade payable days and consequently net working capital days recorded at 3QFY23: -22days (FY22: -3days, FY21: -1day).

Coverages Free Cash Flows From Operations (FCFO) during 3QFY23 decreased to PKR 1,507mln (FY22: PKR 3,231mln, FY21: PKR 3,649mln) in line with the slight decline in EBITDA. During 3QFY23 the EBITDA/Finance-Cost stood at 1.7x (FY22: 3.8x, FY21: 3.6x).

Capitalization The capital structure remains comfortable, as cushioned by timely equity enhancements in the past. As at end-3QFY23, the company's gearing ratio stood at 42%.

CRA

*The correlation shown is indicative and, in certain cases, may not hold.

| Outlook (Stable, Positive, Negative, Developing) Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. 'Stable' outlook means a rating is not likely to change. 'Positive' means it may be raised. 'Negative' means it may be lowered. Where the trends have conflicting elements, the outlook may be described as 'Developing'. | Rating Watch Alerts to the possibility of a rating change subsequent to, or, in anticipation of some material identifiable event with indeterminable rating implications. But it does not mean that a rating change is inevitable. A watch should be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating watch may accompany rating outlook of the respective opinion. | Suspension It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn. | Withdrawn A rating is withdrawn on a) termination of rating mandate, b) the debt instrument is redeemed, c) the rating remains suspended for six months, d) the entity/issuer defaults., or/and e) PACRA finds it impractical to surveill the opinion due to lack of requisite information. | Harmonization A change in rating due to revision in applicable methodology or underlying scale. |
