Rating Rationale and Key Rating Drivers

Pakistan's ethanol industry is largely export based owing to meager domestic consumption. The Country's ethanol exports stood at 183,856 MT in MY21 (MY20: 229,639 MT), dipping by ~20% due to higher molasses exports. Prices in the global market have been high, on the back of spike in ethanol demand, despite unsteady economic conditions worldwide. Impact of high international ethanol prices was supplemented by devaluation of the Pakistani Rupee. Sugarcane production in Pakistan during MY21 improved, as domestic distilleries posted stable profits. Going forward, the industry's margin are expected to remain stable owing to increased ethanol prices, though raw material prices have also increased from high cost of molasses.

The ratings reflect United Ethanol's strong business profile emanating from robust margins and export oriented nature of ethanol industry. Strong margins at gross and operating level were a result of price appreciation and better volumes. Moreover, reduced borrowing costs further augmented profitability. The ratings draw strength from the Company's association with United Group, which has an established presence in the Country's sugar and allied industry. The Company's revenue comprises primarily of exports. United Ethanol has been able to enhance efficiency through effective BMR implementation, yielding positive results. The Company has a moderately leveraged capital structure supplemented by strong coverages and effective working capital management. This keeps financial risk manageable.

Ratings are dependent on the management's ability to effectively maintain margins. Prudent debt and liquidity management is critical for ratings. Any significant increase in debt, deterioration in coverages and/or drag of high advances extended to group concerns, if any, will impact the ratings negatively. Meanwhile, strengthening governance framework remains critical for ratings.

Legal Structure United Ethanol Industries Limited ("United Ethanol" or "the Company") is a public unlisted company.

Background The Company was incorporated in Oct'03 and was formerly owned by Etihad Group. The Company was acquired by Essarani Family in Sept'16 forming it a part of United Group. The Company was non-operational before acquisition.

Operations The Company has its plant located in Sadiqabad, Rahimyar Khan and is strategically positioned with access to 11 sugar mills within a 100KM radius, including SGM Sugar Mills, a group company. The Company produces Extra Neutral Grade ethanol (~96% v/v ethanol) and B Grade ethanol (~94% v/v ethanol), with installed production standing at 120,000 liters per day. Production mainly comprises of ENA ethanol, accounting for 94% of total output. During MY21, 37,495,885 liters (MY20: 36,920,687) of ethanol was produced, a surge of 2%.

Ownership

Ownership Structure Shareholding of the Company rests with Essarani Family, through Mr. Deoo Mal Essarani (24%) and his four sons – Mr. Asha Ram (29%), Dr. Tara Chand (24%), Mahesh Kumar (22%) and Mr. Jugdesh Kumar (1%).

Stability Ownership structure of the business reflects stability and no changes are expected in the near future.

Business Acumen Essarani family has been involved in agriculture sector for a significant period of time and operates under 'United Group'. The Group's entities include two sugar mills (Sindh Abadgar's Sugar Mills and SGM Sugar Mills), United Ethanol Industries Limited, Agro Trade Private Limited and United Agro Chemicals.

Financial Strength The Company has adequate financial strength derived from its Group and support of sponsors. The Group had total assets worth PKR 18bln, supported by an equity base of PKR 11.5bln as of MY20. The Group posted a net profit worth PKR 920mln during MY20. Total debt as at MY20 stood at PKR 6.7bln.

Governance

Board Structure Board of Directors comprises four members including the Chairman, Chief Executive Officer and two Non-Executive Directors. The Board is dominated by the sponsoring family and lacks independent oversight. Thus, indicating a room for improvement. The sponsors intend to increase the size of the Board by inducting an independent director, going forward.

Members' Profile Mr. Deoo Mal Essarani, acts as the Chairman of the Board. He also chairs the Board of two other group companies, Sindh Abadgar's Sugar Mills Limited and SGM Sugar Mills Limited. He has more than 46 years of experience and assumed chairmanship. His son, Mr. Mahesh Kumar, acts as a Non-Executive Director. He has more than 20 years of experience and serves on the Board of Sindh Abadgar's Sugar Mills Limited as well.

Financial Transparency The Company's external auditors, Reanda Haroon Zakaria & Co. Chartered Accountants, has given an unqualified opinion on the financial statements for MY20. The auditor firm hold a satisfactory QCR rating by ICAP, and are rated in category 'B' of SBP's panel of auditors.

Management

Organizational Structure The Company's organizational structure reflects clear reporting lines and is split between the production site and head office. Aspects pertaining to operations are headed by GM Factory, whereas, support functions, except for finance, are shared on a group level and are headed by the Group CFO.

Management Team The Company's management comprises experienced individuals, though they haven't been associated with the Company for long. Dr. Tara Chand, the Chief Executive Officer, has more than 15 years of experience in the sugar and allied industry. Additionally, he acts as the Chief Executive for Sindh Abadgar's Sugar Mills and SGM Sugar Mills. He is ably supported by Mr. Ishfaq Ahmed Nizamani (GM Factory) and Mr. Syed Abid Hussain (Group CFO).

Effectiveness The Company has no management committees in place. However, performance is discussed among management on a frequent basis to review activity.

MIS The Company has deployed ERP software from CosmoSoft.

Control Environment Internal audit function is placed at group level. Going forward, the group plans to enhance its control environment through induction of additional individuals.

Business Risk

Industry Dynamics Pakistan's ethanol industry is largely export based owing to meager domestic consumption. The Country's ethanol exports stood at 183,856 MT in MY21 (MY20: 229,639 MT), dipping by ~20% due to higher molasses exports. Prices in the global market have been high, on the back of spike in ethanol demand, despite unsteady economic conditions worldwide. Impact of high international ethanol prices was supplemented by devaluation of the Pakistani Rupee. Sugarcane production in Pakistan during MY21 improved, as domestic distilleries posted stable profits. Going forward, the industry's margin are expected to remain stable owing to increased ethanol prices, though raw material prices have also increased from high cost of molasses.

Relative Position During MY21, the Company accounted for 8% of Pakistan's total ethanol export.

Revenues The Company's revenue stream is export based, accounting for 97% of total revenue during MY21. Sales revenue during MY21 increased to PKR 3.8bln (MY20: 3.3bln). This was mainly supported by high prices and sales volume, despite rise prices of molasses.

Margins During MY21, the Company was able to pass on the increased costs of raw material, i.e. molasses, in the export market. This led the gross margins to remain stable (MY21: 23%, MY20: 24%). Operating margin posted a dip (MY21: 16%, MY20: 17%), on the back of higher admin and selling expenses (MY21: PKR 261mln, MY20: PKR 217mln). Finance cost posted a decrease (MY21: PKR 141mln, MY20: PKR 239mln), due to lower borrowings. Resultantly, the Company posted a net income of PKR 457mln (MY20: PKR 331mln), translating into a net margin of 12%, (MY20: 10%).

Sustainability The Company has no major expansion activities planned, with its main focus is to improve efficiency through BMR. Moreover, the management has no plans of obtaining further long-term loans and will aim to retain profits for the next couple of years.

Financial Risk

Working Capital Seasonality posts an inherent stress on the Company's working capital cycle. As at MY21, the Company witnessed deterioration in net working capital days to 155 (MY20: 109 days) owing to high inventory held days of 145 (MY20: 91days). Early payments from debtors were reflected in high receivable days of 14 (MY20: 24 days). Resultantly, the Company has an improved room to borrow at trade level (MY21: 32%, MY20: 22%).

Coverages The Company's interest cover posted a surge (MY21: 5.2x, MY20: 2.9x) due to decreased finance cost (MY21: PKR 141mln, MY20: PKR 239mln) and rising free cash flow from operation (MY21: PKR 729mln, MY20: PKR 688mln) led to a surge in core and total interest cover (MY21: 2.7x, MY20: 1.9x) as well.

Capitalization The Company's capital structure remains adequate. Debt-to-equity ratio improved to 42% as at MY21 (MY20: 53%). Total borrowings witnessed a decline during MY21, owing to decrease in short term borrowings (MY21: PKR 1.6bln, MY20: PKR 2.4bln). Mr. Asha Ram, one of the sponsors, has extended a short-term loan of PKR 200mln in MY16. However during MY18, this amount has been re-classified into equity, under Share Deposit Money for further issuance of shares. Long term borrowings comprise a finance facility worth PKR 1.6bln, now stands at PKR 933mln (MY20: PKR 1.1bln) payable in semiannual installments and will mature in Mar'24.

Credit Rating

Credit rating reflects forward-looking opinion on credit worthiness of underlying entity or instrument; more specifically it covers relative ability to honor financial obligations. The primary factor being captured on the rating scale is relative likelihood of default.

Scale	Long-term Rating Definition
AAA	Highest credit quality. Lowest expectation of credit risk. Indicate exceptionally strong capacity for timely payment of financial commitments
AA+	
AA	Very high credit quality. Very low expectation of credit risk. Indicate very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.
AA-	
A+	
A	High credit quality. Low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be vulnerable to changes in circumstances or in economic conditions.
A-	
BBB+	
BBB	Good credit quality. Currently a low expectation of credit risk. The capacity for timely payment of financial commitments is considered adequate, but adverse changes in circumstances and in economic conditions are more likely to impair this capacity.
BBB-	
BB+	Moderate risk. Possibility of credit risk developing. There is a possibility of credit risk developing, particularly as a result of adverse economic or business changes over time; however, business or financial alternatives may be available to allow financial commitments to be met.
BB	
BB-	
B+	
B	High credit risk. A limited margin of safety remains against credit risk. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.
B-	
CCC	
CC	Very high credit risk. Substantial credit risk “CCC” Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic developments. “CC” Rating indicates that default of some kind appears probable. “C” Ratings signal imminent default.
C	
D	Obligations are currently in default.

Scale	Short-term Rating Definition
A1+	The highest capacity for timely repayment.
A1	A strong capacity for timely repayment.
A2	A satisfactory capacity for timely repayment. This may be susceptible to adverse changes in business, economic, or financial conditions.
A3	An adequate capacity for timely repayment. Such capacity is susceptible to adverse changes in business, economic, or financial conditions.
A4	The capacity for timely repayment is more susceptible to adverse changes in business, economic, or financial conditions. Liquidity may not be sufficient.

**The correlation shown is indicative and, in certain cases, may not hold.*

Outlook (Stable, Positive, Negative, Developing) Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. ‘Stable’ outlook means a rating is not likely to change. ‘Positive’ means it may be raised. ‘Negative’ means it may be lowered. Where the trends have conflicting elements, the outlook may be described as ‘Developing’.

Rating Watch Alerts to the possibility of a rating change subsequent to, or, in anticipation of some material identifiable event with indeterminable rating implications. But it does not mean that a rating change is inevitable. A watch should be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating watch may accompany rating outlook of the respective opinion.

Suspension It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn.

Withdrawn A rating is withdrawn on a) termination of rating mandate, b) the debt instrument is redeemed, c) the rating remains suspended for six months, d) the entity/issuer defaults., or/and e) PACRA finds it impractical to surveil the opinion due to lack of requisite information.

Harmonization A change in rating due to revision in applicable methodology or underlying scale.

Surveillance. Surveillance on a publicly disseminated rating opinion is carried out on an ongoing basis till it is formally suspended or withdrawn. A comprehensive surveillance of rating opinion is carried out at least once every six months. However, a rating opinion may be reviewed in the intervening period if it is necessitated by any material happening.
