Rating Rationale and Key Rating Drivers

The Pakistan Water and Power Development Authority ("WAPDA") has issued the 2nd tranche of Sukuk worth PKR 6,352.94mln on 29-Jul-21. WAPDA will utilize this amount to partially finance the construction of the Dasu hydropower project Stage-I ("Dasu"). Dasu, once completed would become the second-largest hydel project in Pakistan. Dasu is a run-river project on the Indus River located in Dasu Kohistan, Khyber Pakhtunkhwa about 350 KM from Islamabad. The project started in 2017 and is expected to be completed in May'27. The project will be completed in two stages, the installed capacity would be 4,320MW (stage-I 2,160MW) and the total annual energy of 21,485 GWh will be produced (Stage-I 12,220 GWh). Stage -I project includes constructing a hydraulic structure on the Indus River and underground power generation facilities. The total land required for the project has been acquired. The Project would be financed through a mix of WAPDA internally generated cash (15%) and borrowing (85%) i) Long-term (local & foreign) and ii) bond issuance (Islamic & Conventional). Currently, the physical progress of the Project stands at ~21.14%, while financial progress stands at ~57.86%. The Series B Sukuk is part of the local financing facility package of PKR 144bln availed from the local syndicate bank for a period of 15 years, whereby PKR 52.8bln is to be raised in the form of GOP guarantee-backed Sukuk in five no. tranches. WAPDA has currently issued 4 Series (A, B, C, and D) of Sukuk by the aggregate amount of PKR 42.706bln, and the remaining available limit of PKR 10.094bln will be issued in the form of Sukuk -Series E. The assigned rating of Sukuk "B" incorporates an unconditional and irrevocable guarantee by the Government of Pakistan (GoP). The guarantee covers the payment of the total outstanding amount of the Sukuk and the related profit component. GOP would pay the entire call amount immediately upon receiving a demand notice from the issuing agent. Additionally, WAPDA has maintained a Debt Payment Account (DPA) with the Facility Agent which is held under an exclusive lien in favor of the Issue agent. During each month, WAPDA deposits an amount equivalent to 1/6th of the upcoming Installment into the DPA, so that the aggregate amount available in the DPA on the upcoming Installment Date is equal to the relevant upcoming Installment. WAPDA has generated a topline of ~PKR 75bln (FY22: ~PKR 99bln) and a bottom line of ~PKR 8bln during FY23 (FY22: ~PKR 19bln).

WAPDA generated 31,286 GWh of electricity in FY23. WAPDA expects to generate an additional ~8,990MW by the completion of new hydel projects in the next six years.

The Pakistan Credit Rating Agency Limited

Issuer Profile

Profile WAPDA is a statutory body fully owned by the Government of Pakistan, established through WAPDA Act 1958. WAPDA was unbundled in the year 2007 whereby the functions of its Power wing were redefined as Hydel Power Generation and Operation & Maintenance (O&M) of powerhouses. Following unbundling of its power wing, WAPDA's mandate is now the development of water and hydropower resources in an efficient manner. Thus it has the primary responsibility to develop Hydel Power Projects. The entity generates a total of 9,389MW. It is the largest hydel energy producer in the country. WAPDA is in the process of constructing different projects which are to add ~8,990MW by 2029.

Ownership WAPDA is an autonomous and statutory body under the administrative control of the Federal Government, which maintains tight control of the authority. The Authority's budget and accounts require government approval, as do changes in its powers, duties and projects. The government funds the majority of WAPDA's projects via grants, re-lending and loans. It also provides a favorable tariff scheme, sufficiently meeting WAPDA's operating costs and provides a reasonable return on investment. **Governance** The Authority comprises the Chairman, a member of each wing (Water, Power, and Finance), and secretary WAPDA. Lt. General (Retd.) Sajjad Ghani is the Chairman of WAPDA since 2022 a retired army professional and a diplomat brings the experience of 4 decades with him to the management of the WAPDA. The Ministry of Water Resources provides oversight to WAPDA.

Management WAPDA has a highly experienced management team with most of them having long term associations.

Business Risk WAPDA plans to add over 10,000MW hydel electricity in the next decade. Going forward, cheap renewable electricity will be a challenge to the viability of thermal power plants. WAPDA has a total generation capacity of 9,389MW, while many projects are in pipeline including Mohmand Dam, Tarbela 5th Extension, Dasu Hydro power and Diamer Bhasha Dam Power Project. The aforementioned projects with a maximum capacity of 8,990 MW are expected to complete in the year 2025, 2026, 2027 and 2029 respectively. WAPDA generated 31,286GWh electricity in FY23. The Company has generated a topline of ~PKR 75bln during FY23 (FY22: ~PKR 99bln). WAPDA generated a humble bottom line of ~PKR 8bln during FY23 (FY22: ~PKR 19bln).

Financial Risk As part of its arrangement with the provinces, WAPDA is liable to pay a Net Hydel Profit @1.404 Kwh to KPK and @ 1.337 Kwh to Punjab. This amount is recoverable from CPPA-G via its tariff. NEPRA approved WAPDA's tariff including Net Hydel Profit payable to provinces in FY17. Consequently, WHE's receivables increased significantly at the end of FY23 to ~PKR 290bln (FY22: ~PKR 275bln). Thus, receivable days have also increased to ~1,379 days at end FY23 (FY22: ~957 days). WAPDA's free cash flow from operation (FCFO) during FY23 increased to ~PKR 21bln (FY22: ~PKR 86bln). Consequently, WAPDA's interest cover ratio has also decreased to ~ 0.5x at end FY23 (FY22: 2.1x). During FY23, WAPDA's leverage capital structure stood at~ 74.2% (FY22:~ 69.9%), on account of total borrowing increased significantly at end FY23 to ~PKR 718bln (FY22: ~PKR 577bln).

Relative Seniority/Subordination Of Instrument The claims of the Sukuk holders will rank superior to the claims of other stakeholders.

Credit Enhancement The Sukuk facility is covered through the GoP Guaranteed Backed Facilities i.e. Unconditional and irrevocable First Demand Guarantee covering principal and profit amount and any other amounts becoming due for payment in respect of the facilities from the Ministry of Finance, Government of Pakistan without SLR eligibility. WAPDA will also maintain a Debt Payment Account with the Investment Agent which will be held under exclusive lien in favour of the issue Agent. During each month WAPDA shall deposit equivalent to the 1/6th of the instalment amount into the Debt Payment Account (not later than the 15th day of each month of the instalment period) so that the aggregate amount available in the Debt Payment Account on the upcoming instalment date is equal to the relevant instalment amount.

Outlook (Stable, Positive, Negative, Developing) Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. 'Stable' outlook means a rating is not likely to change. 'Positive' means it may be raised. 'Negative' means it may be lowered. Where the trends have conflicting elements, the outlook may be described as 'Developing'.	Rating Watch Alerts to the possibility of a rating change subsequent to, or, in anticipation of some material identifiable event with indeterminable rating implications. But it does not mean that a rating change is inevitable. A watch should be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating watch may accompany rating outlook of the respective opinion.	Suspension It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn.	Withdrawn A rating is withdrawn on a) termination of rating mandate, b) the debt instrument is redeemed, c) the rating remains suspended for six months, d) the entity/issuer defaults., or/and e) PACRA finds it impractical to surveill the opinion due to lack of requisite information.	Harmonization A change in rating due to revision in applicable methodology or underlying scale.
---	---	--	--	---

Surveillance. Surveillance on a publicly disseminated rating opinion is carried out on an ongoing basis till it is formally suspended or withdrawn. A comprehensive surveillance of rating opinion is carried out at least once every six months. However, a rating opinion may be reviewed in the intervening period if it is necessitated by any material happening.

- a) Broker Entity Rating
- b) Corporate Rating
 - c) Debt Instrument Rating d) Financial Institution Rating
