Rating Rationale and Key Rating Drivers

The ratings of Denim-E (Pvt.) Limited incorporates progressive growth of the Company in the initial years. The Company is a family-owned business. Apart from this company, sponsor family is involved in real estate and Biogas businesses. Denim-E is principally engaged in the manufacturing and export of garments/made-up, clothing, knitwear and weaving of apparels. The Company have cut to pack capacity of 6,000 pieces/day which accumulate to 2.1mln pieces annually. Governance framework can be further strengthened over the course. The Company's management is cognizant of the textile industry's volatility and has planned phase-wise up gradation of machinery to remain competitive. Healthy growth has been recorded over last three years. The Company's topline increased by 67% YoY, during FY21, to stand at PKR 1,096mln; a resultant of higher capacity utilization accompanied with better prices. Sales mix represents major contribution from export market; FY21 majorly tilted towards exports 99% of total revenue (FY20: 99%). The Company enjoys customer base with several export destinations where various retailers are also on board. Ratings incorporate sound financial risk manifested by significant improvement in working capital and interest coverage. The Company has adequate financial profile characterized by adequate coverages, low leveraged capital structure and improving working capital management. Going forward, the planned CAPEX is expected to bring in efficiency and improve margins. During the period Jul-DecFY21-22, textile exports of the country surged 26 percent YoY, fielding \$9.39 billion in total export remittances, as compared to \$7.44 billion in the same period last year. This is attributable to increase in demand for textile products internationally and channeling of export orders towards Pakistani market. On a YoY basis, the exports of value-added textile items increased in both quantity and value in December 2021. Going forward, the textile sector's outlook is expected to stay positive in the medium term where the demand for textile products is expected to sustain. In the local market, the textile sector has recorded strong performance.

The ratings are dependent on the management's ability to uphold the entity's growing performance trend. Meanwhile, maintaining strong margins and coverages to fulfill financial obligations will remain critical. The company is expected to adhere to conservative financial discipline, which would be crucial to ratings.

Business Risk

Industry Dynamics During the period July-December FY21-22, textile exports surged 26 percent YoY, fielding \$9.39 billion in total export remittances, as compared to \$7.44 billion in the same period last year. This is attributable to increase in demand for textile products internationally and channelling of export orders towards Pakistani market. On a YoY basis, the exports of value-added textile items increased in both quantity and value in December 2021. Going forward, the textile sector's outlook is expected to stay positive in the medium term where the demand for textile products is expected to sustain. In the local market, the textile sector has recorded strong performance. The relief measures introduced by the State Bank of Pakistan such as deferment of loan payments for one year, low-interest rates, and salary refinance scheme also provided comfort to the sector. Many players have also availed the TERF scheme announced by the Central Bank. This will lead to overall leverage of the sector to increase; however, on relaxed financing rates. The sustainability of demand pattern for the current higher orders from Europe and USA remains essential for the feasible utilization of added capacity by textile players.

Relative Position Many textile companies had a transition to move from conventional to sustainable practices. Whereas Denim-E was formed with one vision in mind and that was to be the first denim manufacturing Company in Pakistan to be fully sustainable from its very inception. The Company's plan of enhancing current capacity will assist strengthening footprint, going forward.

Revenues The analysis of the last three years reveals that the Company's revenue base. During FY21, the Company's top line has improved to PKR 1,096mln (FY20: PKR 646mln). The contribution of the export market towards the revenue base is 98%. During FY21, the Company's gross profits enhanced to PKR 203mln (FY20: PKR 167mln). The finance cost of the Company surged by 230% and was recorded at PKR 33mln (FY20: PKR 10mln). This is due to enhanced short-term borrowing which is a requirement of the course of business. Net profitability clocked in at PKR 42mln (FY20: PKR 64mln), down by 34.3% YoY. The major portion of the revenue base is derived from exports. The main export destinations in FY21 were North America and European countries.

Margins During FY21, gross profit margin stood at 18.5% (FY20: 25.8%) owing to the increased in cost of sales to PKR 893mln (FY20: PKR 479mln), representing a rise of 86%. Operating margin witnessed decline to 3.5% (FY20: 8.5%), on the back of 46.4% increase in operating expenses to PKR 164mln (FY20: PKR 112mln). Hence, net profit margin clocked at 3.8% (FY20: 9.9%).

Sustainability The Company is planning CAPEX of 250,000 pcs per month till 2023 and 400,000 Pcs till 2024. The Company has rented new unit which can easily cater the plan for capacity increase till 2024. New stitching and washing machinery will be purchased in line with extension plan and also plan ETP Plant installation. This will cater to expansion in revenue base and strengthening business profile the company.

Financial Risk

Working Capital During FY21, the Company's gross working capital cycle recorded marginal increase to 77days (FY20: 76days) attributable to slight attrition in receivable days (FY21: 27days, FY20: 30days). The Company's net trade assets increased by 12.4% to clock in at PKR 319mln (FY20: PKR 283mln).

Coverages Free Cash Flows from Operations (FCFO) increased in FY21 and clocked in at PKR 105mln on the back of higher EBITDA YoY. The interest coverage ratio declined to 3.7x in FY21 from 9.8x in FY20 due to an increase in short-term borrowings as well as finance cost.

Credit Rating

Credit rating reflects forward-looking opinion on credit worthiness of underlying entity or instrument; more specifically it covers relative ability to honor financial obligations. The primary factor being captured on the rating scale is relative likelihood of default.

Long-term Rating		Short-term Rating	
Scale	Definition	Scale	Definition
AAA	Highest credit quality. Lowest expectation of credit risk. Indicate exceptionally strong capacity for timely payment of financial commitments	A1+	The highest capacity for timely repayment.
AA+		A1	A strong capacity for timely repayment.
AA	Very high credit quality. Very low expectation of credit risk. Indicate very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.	A2	A satisfactory capacity for timely repayment. This may be susceptible to adverse changes in business, economic, or financial conditions.
AA-		A3	An adequate capacity for timely repayment. Such capacity is susceptible to adverse changes in business, economic, or financial conditions.
A+	High credit quality. Low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be vulnerable to changes in circumstances or in economic conditions.	A4	The capacity for timely repayment is more susceptible to adverse changes in business, economic, or financial conditions. Liquidity may not be sufficient.
A-			
BBB+	Good credit quality. Currently a low expectation of credit risk. The capacity for timely payment of financial commitments is considered adequate, but adverse changes in circumstances and in economic conditions are more likely to impair this capacity.		
BBB			
BB+	Moderate risk. Possibility of credit risk developing. There is a possibility of credit risk developing, particularly as a result of adverse economic or business changes over time; however, business or financial alternatives may be available to allow financial commitments to be met.		
BB			
BB-			
B+	High credit risk. A limited margin of safety remains against credit risk. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.		
B			
B-			
CCC	Very high credit risk. Substantial credit risk “CCC” Default is a real possibility.		
CC	Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic developments. “CC” Rating indicates that default of some kind appears probable. “C” Ratings signal imminent default.

D	Obligations are currently in default.		

*The correlation shown is indicative and, in certain cases, may not hold.

Outlook (Stable, Positive, Negative, Developing) Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. ‘Stable’ outlook means a rating is not likely to change. ‘Positive’ means it may be raised. ‘Negative’ means it may be lowered. Where the trends have conflicting elements, the outlook may be described as ‘Developing’.	Rating Watch Alerts to the possibility of a rating change subsequent to, or, in anticipation of some material identifiable event with indeterminable rating implications. But it does not mean that a rating change is inevitable. A watch should be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating watch may accompany rating outlook of the respective opinion.	Suspension It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn.	Withdrawn A rating is withdrawn on a) termination of rating mandate, b) the debt instrument is redeemed, c) the rating remains suspended for six months, d) the entity/issuer defaults., or/and e) PACRA finds it impractical to surveil the opinion due to lack of requisite information.	Harmonization A change in rating due to revision in applicable methodology or underlying scale.
--	--	---	---	--

Surveillance. Surveillance on a publicly disseminated rating opinion is carried out on an ongoing basis till it is formally suspended or withdrawn. A comprehensive surveillance of rating opinion is carried out at least once every six months. However, a rating opinion may be reviewed in the intervening period if it is necessitated by any material happening.
