Rating Rationale and Key Rating Drivers

Quaid-e-Azam Solar Power (Pvt.) Limited (QASPL) is operating a 100MW Solar Power Plant – set up by the Government of Punjab (GoPb), and commenced its operations in Jul-15 and operates under the Renewable Energy Policy 2006. The Ratings take into account the association of GoPb. A long-term energy purchase agreement of 25 years with CPPA-G, mitigating the underlying business and economical risk factors, along with sovereign guarantees on power purchaser’s payment obligation, also contribute positively towards the ratings. Comfort is drawn from TBEA Xinjiang Sunoasis Company Ltd. – the O&M operator having international experience. Ratings incorporate adherence to performance benchmarks through power generation, underpinned by healthy cash flows generation. QASPL has repaid ~73% of its debt on time, facet of strong financial profile and sound working capital management. Most of the working capital requirements are fulfilled through internal cash flow generation. This generation ability provides strength to the Company and creates room for further expansion, which the management is already considering.

Aligning receipt patterns, debt repayment behavior, and upholding a strong liquidity position while meeting operational performance benchmarks are key considerations for maintaining the financial ratings. External factors such as any adverse changes in the regulatory framework and weakening of financial profile may impact negatively.

The Pakistan Credit Rating Agency Limited

Profile

Plant  Quaid-e-Azam Solar Power (Pvt.) Limited (QASPL) was incorporated as a private limited Company under the repealed Companies Ordinance, 1984 (Now the Companies Act, 2017) on September 16, 2013. The principal activity of the Company is to build, own, operate and maintain a solar power plant having a total capacity of 100 MW in Lal Sohanra, Cholistan, Bahawalpur. The Company achieved Commercial Operations Date (COD) on July 15, 2015.

Tariff  QASPL has been provided a reference levelized tariff of 14.15 US¢ (PKR 14.8591) per KWh. Tariff control period is 25 years from the COD. However, after the continuous indexation, the Company is now receiving the tariff of PKR 32.59.

Return On Project  The return on equity (ROE) as per the tariff determination of the project is at 12%.

Ownership

Ownership Structure  QASPL is wholly owned by Government of Punjab through Energy department.

Stability  Stability in the IPPs is drawn from the agreements signed between the Company and power purchaser. The term of the EPA is 25 years. Meanwhile, the Implementation Agreement provides a sovereign guarantee for cashflows, given adherence to agreed performance benchmarks.

Business Acumen  Major stakeholder in the Company is the GoPb. Business acumen is, therefore, considered strong.

Financial Strength  Financial strength of the owners is deemed strong because of the ownership of GoPb.

Governance

Board Structure  QASPL’s Board of Directors (BoD) comprises twelve members, excluding the CEO. Five members represent Government of Punjab through different departments i.e., Secretary Energy, Secretary Finance, Chairman P&D Board, Chairman PBIT and Secretary Industries. While seven members of the board are independent directors including the chairman. The board members have diverse experience from different industries.

Members’ Profile  Mr. Zaheer Ahmed Ghanghro is the Chairman of BoD with over two decades of professional experience in different functions and designations related to power generation companies. He also held the position of Chairman of BoD in Quaid-e-Azam Thermal Power Limited and CEO of Halmore Power Generation Company.

Board Effectiveness  To ensure the effectiveness, there are seven board committees i.e., Risk Management Committee, Audit Committee, HR, F&P, CSR, GRC and Nomination Committee.

Financial Transparency  BDO Ebrahim & Co. Chartered Accountants, are the external auditor of the company. They gave an unqualified audit report on FY23 financials.

Management

Organizational Structure  IPPs generally feature by a flat organizational structure, mainly comprising of finance and technical staff, while the engineering, construction and operations of the plant are outsourced. However project company is overseeing EPC and O&M Contractors through renowned independent engineer technical advisor.

Management Team  The management team is led by Mr. Muhammad Badar ul Munir, CEO. Mr. Muhammad Badar ul Munir has been associated with QASPL for 10 years. Before his appointment as CEO, he was the CFO of the Company. The entire operational set-up of the Company falls under the purview of CEO, with each department head directly reporting to him.

Effectiveness  The management of QASPL is mostly engaged in the technical, finance and company management related activities. The main operations and maintenance of the plant has been outsourced to the O&M contractors i.e. TBEA Xinjiang Sunoasis company Ltd.

Control Environment  The Company maintains an adequate MIS which helps management to keep track of all operations and liaison with O&M operator. Moreover, the Company has an internal audit department for pre-audit and also outsourced the function of internal audit through Ilyas Saeed to monitor the risk that arises from the operations.

Operational Risk

Power Purchase Agreement  The electricity generated is sold to Central Power Purchasing Agency (Guarantee) Limited (“CPPA-G”) under a 25-year Power Purchase Agreement (PPA).

Operation And Maintenance  The operations and maintenance of the plant have been outsourced to the O&M contractors i.e. TBEA Xinjiang Sunoasis company Ltd. The O&M operator ensures adherence of the plant to meet minimum performance benchmarks.

Resource Risk  Solar energy is dependent on mainly two things irradiation and temperature. QASPL has employed single axis technology, which will help the plant to effectively utilize solar energy.

Insurance Cover  QASPL has adequate insurance coverage for business interruptions, property damages etc. as per PPA and lenders facility agreements.

Performance Risk

Industry Dynamics  Energy Sector is the backbone of an economy, while Power is one of the most significant segments of the Energy Sector. After the introduction of Renewable Power Policy 2006, the inclination towards the renewable energy sources i.e. Hydro, Solar, Wind, Biogas, has been on rise. Till June FY23, the total installed generation capacity of Pakistan has jumped to 45,885MW (FY22: 43,557MW). Biggest contributor remains to be thermal i.e. 59% followed by hydro i.e. 26%.

Generation  The Company achieved Commercial Operations Date (COD) on July 15, 2015. During 1HFY24, the Company generated 75.43GWh (FY23: 160.96GWh, FY22: 164.77 GWh) and maintained the availability as per agreed parameters. Consequently, the Company reported topline of PKR 4,796mln in FY23 as compared to PKR 3,992mln in the corresponding period last year depicting an increase of 20%. (1HFY24: PKR 2,590mln).

Operational Risk  The required availability for QASPL under the PPA is 75%. The company's required availability and efficiency remained above the required benchmark.

Financial Risk

Financing Structure Analysis  Debt financing constitutes 75% of the project cost i.e. PKR 11,137mln. The 100% project debt of PKR 11,137mln was funded by Bank of Punjab (BoP) with a tenure of 10 years with quarterly payments including the grace period of 1 Year. The equity portion of the project is PKR 3,810mln. QASPL has repaid 33 installments by end Dec-23.

Liquidity Profile  Company has been receiving the payments regularly from the power purchaser and as on end Dec-23 receivables stand at PKR 873mln down from PKR 3,113mln at end Jun-23.

Working Capital Financing  Company manages its working capital needs through internal cash flows and have not avail any working capital lines. Net working Capital cycle of the Company has decreased to 101 days as on end Dec-23 down from 239 days at end Jun-23 on back of regular payments from the Power Purchaser (FY22:440days).

Cash Flow Analysis  During 1HFY24, free cash flows from operations (FCF0) stood at PKR 2,174mln (FY23: 3,677mln, FY22: 2,759mln). Interest and debt coverage ratio stood at 5.2x and 1.8x respectively, reflecting the Company’s strong ability to pay its financial obligations.

Capitalization  The project was started with the allowed project cost of PKR 15,130mln with 75:25 debt to equity ratio. Total project equity of PKR 3,810mln has been injected by equity sponsors. Currently debt to equity ratio stood at 16.5% at end Dec-23 (FY23: 20.5%).

# Notes
### Credit Rating

Credit rating reflects forward-looking opinion on credit worthiness of underlying entity or instrument; more specifically it covers relative ability to honor financial obligations. The primary factor being captured on the rating scale is relative likelihood of default.

#### Long-term Rating

<td>Vulnerable to changes in circumstances or in economic conditions.</td>
</tr>
</tbody>
</table>

**Outlook (Stable, Positive, Negative, Developing)** Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. ‘Stable’ outlook means a rating is not likely to change. ‘Positive’ means it may be raised. ‘Negative’ means it may be lowered. Where the trends have conflicting elements, the outlook may be described as ‘Developing’.

**Rating Watch** Alerts to the possibility of a rating change subsequent to, or in anticipation of some material identifiable event with indeterminable rating implications. But it does not mean that a rating change is inevitable. A watch should be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating watch may accompany rating outlook of the respective opinion.

**Suspension** It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn.

**Withdrawn** A rating is withdrawn on a) termination of rating mandate, b) the debt instrument is redeemed, c) the rating remains suspended for six months, d) the entity/issuer defaults, or (and) e) PACRA finds it impractical to surveil the opinion due to lack of requisite information.

**Harmonization** A change in rating due to revision in applicable methodology or underlying scale.

### Scale

- **AAA** Highest credit quality. Lowest expectation of credit risk. Indicate exceptionally strong capacity for timely payment of financial commitments.
- **AA+** Very high credit quality. Very low expectation of credit risk. Indicate very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.
- **AA** High credit quality. Low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be vulnerable to changes in circumstances or in economic conditions.
- **A+** High credit quality. Low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be vulnerable to changes in circumstances or in economic conditions.
- **A** High credit risk. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business and economic environment.
- **BBB+** Good credit quality. Currently a low expectation of credit risk. The capacity for timely payment of financial commitments is considered adequate, but adverse changes in circumstances and in economic conditions are more likely to impair this capacity.
- **BBB** BBB- Moderate risk. Possibility of credit risk developing. There is a possibility of credit risk developing, particularly as a result of adverse economic or business changes over time; however, business or financial alternatives may be available to allow financial commitments to be met.
- **BBB-** Moderate risk. Possibility of credit risk developing. There is a possibility of credit risk developing, particularly as a result of adverse economic or business changes over time; however, business or financial alternatives may be available to allow financial commitments to be met.
- **BB+** High credit risk. A limited margin of safety remains against credit risk. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.
- **BB** High credit risk. A limited margin of safety remains against credit risk. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.
- **B+** High credit risk. A limited margin of safety remains against credit risk. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.
- **B** High credit risk. A limited margin of safety remains against credit risk. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.
- **CCC** Very high credit risk. Substantial credit risk “CCC”. Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic developments. “CC” Ratings indicate that default of some kind appears probable. “C” Ratings signal imminent default.
- **CC** Very high credit risk. Substantial credit risk “CCC”. Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic developments. “CC” Ratings indicate that default of some kind appears probable. “C” Ratings signal imminent default.
- **C** Very high credit risk. Substantial credit risk “CCC”. Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic developments. “CC” Ratings indicate that default of some kind appears probable. “C” Ratings signal imminent default.

**Disclaimer:** PACRA has used due care in preparation of this document. Our information has been obtained from sources we consider to be reliable but its accuracy or completeness is not guaranteed. PACRA shall owe no liability whatsoever to any loss or damage caused by or resulting from any error in such information. Contents of PACRA documents may be used, with due care and in the right context, with credit to PACRA. Our reports and ratings constitute opinions, not recommendations to buy or to sell.
Rating Team Statements

(1) Rating is just an opinion about the creditworthiness of the entity and does not constitute recommendation to buy, hold or sell any security of the entity rated or to buy, hold or sell the security rated, as the case may be | Chapter III; 14-3-(x)

2) Conflict of Interest

i. The Rating Team or any of their family members have no interest in this rating | Chapter III; 12-2-(q)

ii. PACRA, the analysts involved in the rating process and members of its rating committee, and their family members, do not have any conflict of interest relating to the rating done by them | Chapter III; 12-2-(e) & (k)

iii. The analyst is not a substantial shareholder of the customer being rated by PACRA | Annexure F; d-(ii) Explanation: for the purpose of above clause, the term “family members” shall include only those family members who are dependent on the analyst and members of the rating committee

Restrictions

(3) No director, officer or employee of PACRA communicates the information, acquired by him for use for rating purposes, to any other person except where required under law to do so | Chapter III; 10-(5)

(4) PACRA does not disclose or discuss with outside parties or make improper use of the non-public information which has come to its knowledge during business relationship with the customer | Chapter III; 10-7-(d)

(5) PACRA does not make proposals or recommendations regarding the activities of rated entities that could impact a credit rating of entity subject to rating | Chapter III; 10-7-(k)

Conduct of Business

(6) PACRA fulfills its obligations in a fair, efficient, transparent and ethical manner and renders high standards of services in performing its functions and obligations | Chapter III; 11-A-(a)

(7) PACRA uses due care in preparation of this Rating Report. Our information has been obtained from sources we consider to be reliable but its accuracy or completeness is not guaranteed. PACRA does not, in every instance, independently verifies or validates information received in the rating process or in preparing this Rating Report | Clause 11-(A)(p).

(8) PACRA prohibits its employees and analysts from soliciting money, gifts or favors from anyone with whom PACRA conducts business | Chapter III; 11-A-(q)

(9) PACRA ensures before commencement of the rating process that an analyst or employee has not had a recent employment or other significant business or personal relationship with the rated entity that may cause or may be perceived as causing a conflict of interest | Chapter III; 11-A-(r)

(10) PACRA maintains integrity in seeking rating business | Chapter III; 11-A-(u)

(11) PACRA promptly investigates, in the event of a misconduct or a breach of the policies, procedures and controls, and takes appropriate steps to rectify any weaknesses to prevent any recurrence along with suitable punitive action against the responsible employee(s) | Chapter III; 11-B-(m)

Independence & Conflict of Interest

(12) PACRA receives compensation from the entity being rated or any third party for the rating services it offers. The receipt of this compensation has no influence on PACRA’s opinions or other analytical processes. In all instances, PACRA is committed to preserving the objectivity, integrity and independence of its ratings. Our relationship is governed by two distinct mandates i) rating mandate - signed with the entity being rated or issuer of the debt instrument, and fee mandate - signed with the payer, which can be different from the entity

(13) PACRA does not provide consultancy/advisory services or other services to any of its customers or to any of its customers’ associated companies and associated undertakings that is being rated or has been rated by it during the preceding three years unless it has adequate mechanism in place ensuring that provision of such services does not lead to a conflict of interest situation with its rating activities | Chapter III; 10-7-(d)

(14) PACRA discloses that no shareholder directly or indirectly holding 10% or more of the share capital of PACRA also holds directly or indirectly 10% or more of the share capital of the entity which is subject to rating or the entity which issued the instrument subject to rating by PACRA | Reference Chapter III; 12-2-(f)

(15) PACRA ensures that the rating assigned to an entity or instrument is not affected by the existence of a business relationship between PACRA and the entity or any other party, or the non-existence of such a relationship | Chapter III; 12-2-(i)

(16) PACRA ensures that the analysts or any of their family members shall not buy or sell or engage in any transaction in any security which falls in the analyst’s area of primary analytical responsibility. This clause shall, however, not be applicable on investment in securities through collective investment schemes | Chapter III; 12-2-(i)

(17) PACRA has established policies and procedure governing investments and trading in securities by its employees and for monitoring the same to prevent insider trading, market manipulation or any other market abuse | Chapter III; 11-B-(g)

Monitoring and review

(18) PACRA monitors all the outstanding ratings continuously and any potential change therein due to any event associated with the issuer, the security arrangement, the industry etc., is disseminated to the market, immediately and in effective manner, after appropriate consultation with the entity/issuer | Chapter III; 17-(a)

(19) PACRA reviews all the outstanding ratings periodically, on annual basis; Provided that public dissemination of annual review and, in an instance of change in rating will be made | Chapter III; 17-(b)

(20) PACRA initiates immediate review of the outstanding rating upon becoming aware of any information that may reasonably be expected to result in downgrading of the rating | Chapter III; 17-(c)

(21) PACRA engages with the issuer and the debt securities trustee, to remain updated on all information pertaining to the rating of the entity/instrument | Chapter III; 17-(d)

Probability of Default

(22) PACRA’s Rating Scale reflects the expectation of credit risk. The highest rating has the lowest relative likelihood of default (i.e., probability). PACRA’s transition studies capture the historical performance behavior of a specific rating notch. Transition behavior of the assigned rating can be obtained from PACRA’s Transition Study available at our website. (www.pacra.com). However, actual transition of rating may not follow the pattern observed in the past | Chapter III; 14-3-(f)(vii)

Proprietary Information

(23) All information contained herein is considered proprietary by PACRA. Hence, none of the information in this document can be copied or, otherwise reproduced, stored or disseminated in whole or in part in any form or by any means whatsoever by any person without PACRA’s prior written consent
