The rating of Universal reflects strong parentage of the company – Bibojee group. The parentage has provided multi-faceted support to the company: a) injection of capital from different times of the crisis, b) sustenance in the cleansing period spanning over a couple of years, c) captive business. The business strategy envisages tapping captive business through co-insurance with an established group, with gradual entry into the market business in the pipeline. Enlistments with some of the leading banks have been completed.

The rating is dependent upon sustained improvement in relative position of the company, augmenting its sustainability, as envisaged by the board and the management. Meanwhile, continued improvement in the financial profile of the company is also imperative for the rating.
