Rating Rationale and Key Rating Drivers

The ratings reflect PNSC's strong ownership - majority owned by the Government of Pakistan (89.13%) - and its strategic significance as the country's national flag carrier. The Corporation operates on a "One Vessel One Company" basis. PNSC's business profile has gained significant strength in recent years on account of efficient fleet utilization and cost management measures taken by the management. Revenues emanate from a mixture of liquid and dry cargo, with liquid cargo bearing a higher weightage. Company revenues in FY20 swell on the account of high demand for Oil tankers. However, revenues declined post covid as AFRA rates settle down, revenues are also exposed to Volatility in BDI index. The Corporation also operates through chartered-hire vessels to stimulate business volumes. PNSC is planning to acquire two secondhand vessels, both for the oil segments within the current fiscal year, namely one Aframax Crude Oil Tanker (105,000 DWT), one LR-1 Product Carrier (75,000 DWT). Procurement of ships is 90% financed through external debt. On the other hand, additions in managed fleet are expected to boost up the revenue base by their revenue contribution in existing revenue base of 11 vessels. and generate better profit margins than from chartered-hire vessels business. This factor, put along with the Corporation's on-balance sheet liquidity, is a support to the overall risk profile.

The ratings are dependent on the Corporation's ability to generate amicable cash flows post expansion. Meanwhile, prudent financial discipline alongside growth trajectory is imperative.

Profile

Legal Structure The Pakistan National Shipping Corporation (herein referred to as the "PNSC" or "the Corporation") is an autonomous Corporation, functioning under the control of the Ministry of Maritime Affairs, Government of Pakistan. The Corporation is listed on the Pakistan Stock Exchange since 1980, and has nineteen subsidiaries and one associate concern.

Background PNSC came into existence by the merger of National Shipping Corporation (NSC) and Pakistan Shipping Corporation (PSC) in 1979 through Pakistan National Shipping Corporation Ordinance, No XX, 1979. The Corporation is entirely autonomous and is managed by its Board of Directors (BoD).

Operations PNSC, being the national flag carrier of Pakistan, is involved in the transportation of dry bulk and liquid cargoes globally through managed and chartered vessels. The Corporation manages a fleet of 11 vessels, consisting of 6 tankers and 5 bulk carriers. The cargo carrying capacity of PNSC stands at ~831,711 DWT as at End-Sep'20. A small portion of PNSC's operations also comprises income from real estate business.

Ownership

Ownership Structure PNSC is majorly owned by the Government of Pakistan (GoP) (87.3%), through the Ministry of Maritime Affairs, followed by the PNSC Employees Empowerment Trust (1.83%), bringing the total GoP holding to 89.13%.

Stability Stable ownership structure exists, with the GoP possessing majority stockholding in the Corporation, since its formation.

Business Acumen The Corporation was formed under constitutional protection with an objective of providing the country with a national flag shipping service. Major stakeholder in the Corporation is the GoP. Business acumen is, therefore, considered strong.

Financial Strength Financial strength of the owners is deemed strong because of the ownership of GoP.

Governance

Board Structure The Corporation's Board of Directors comprises members nominated by the Federal Government and minority shareholders. A seven member Board exists, with five of these directors (including the Chairman) nominated by the GoP.

Members' Profile Mr. Shakeel Ahmed Mangnejo was the Chairman and CEO. And the position is vacant as it will be nominated by the Government of Pakistan.

Board Effectiveness The Board has formed three lower committees, namely (i) Audit & Finance Committee, (ii) HR and Nomination Committee & (iii) Strategy and Risk Management Committee

Financial Transparency The Corporation complies with the Listed Companies (Code of Corporate Governance) Regulations 2019, applicable on listed entities, which strengthens its overall governance framework. KPMG and GT Anjum Rehman Chartered Accountants are the External Auditors. They have expressed an unqualified opinion and review on the consolidated financial statements for the year ended June 30th 2021.

Management

Organizational Structure PNSC has a well-defined organizational structure with a professional management team.

Management Team Seasoned professionals, having long association with PNSC hold the key management positions in the Corporation. Mr. Shakeel Ahmed Mangnejo, the Board Chairman, also acts in the capacity of the CEO, as per the PNSC Ordinance, 1979.

Effectiveness In order to keep an effective oversight of the business operations, twelve management committees are in place comprising various key management personnel.

MIS PNSC deploys Enterprise Resource Planning software – "Ship Management Expert System" (SES) – for its MIS reporting. The system provides online link between vessels and head office. The Corporation employs 'Purple Finder' – an international satellite system, to track its vessels with the help of equipment trackers that have been installed in the fleet.

Control Environment The Corporation relishes on strong governance practices and discrete management system. A tall organization structure with clearly defined lines of responsibilities exist. This is accompanied by an integrated well-versed information system to support functions pertinent to a shipping corporation.

Business Risk

Industry Dynamics Pakistan's total seaborne trade during FY21 reached to ~110mln DWT but in FY20 it dropped to ~94mln DWT out of which ~66mln DWT constituted dry bulk trade and ~27mln DWT accounted for liquid bulk trade. Liquid bulk comprises import of crude oil variants by the oil and gas sector, particularly refineries and OMCs. White oil import (such as MOGAS) is becoming the new mania of the era as the global and domestic market witness a shift in energy mix to "clean oil". The shipping sector benefited from global economic environment. However, with looming global recession, the demand continues to remain subdued and adversely impacted in all segments of world shipping i.e., freight, asset values and demolition prices.

Relative Position The Corporation's share in Pakistan's seaborne trade was recorded at ~10% during FY21 (FY20: ~9.3%). In liquid bulk cargo, PNSC has a considerable share (~29%), whereas in dry bulk, the Corporation possesses a share of ~1.98%. PNSC is privileged of being the sole national flag carrier with a fleet of bulk carriers and oil tankers, comprising 100% Pakistan fleet.

Revenues PNSC's revenue emanates from two sources both from owned and charter vessels; liquid cargo (~76%) and dry bulk (~24%). During FY20, despite the impact of Covid-19 PNSC shows promising growth. Business in bulk trade was low but the liquid cargo covered it successfully. However, in FY21 AFRA rates settles down and impacted the topline and it clocked at PKR ~12.7bln (7% decline YoY). Furthermore, in 1QFY22 company posted the topline of PKR ~4.7bln on the back of increase in voyages. More support coming from the upcoming expansions of existing refineries are expected to contribute to PNSC's revenue in future.

Margins During 3MFY22 & FY21 PNSC's margins declined as a result of decreased demand of oil tankers and increase in the fuel charges (Gross margin: 3MFY22: 20.2%, FY21: 22.5%, FY20: 33.1%, Operating margin: 3MFY22: 13.8%, FY21: 12.2%, FY20: 20.07%). Since shipping industry is indexed, AFRA rates directly impact the freight rate charged by PNSC to refineries. AFRA rates represented a downward trend-post covid19.

Sustainability Moving onwards, after successfully inducting two new oil tankers on board, PNSC intends to induct one Aframax and one LR-1 product tanker in the fleet of its managed vessel during FY 2021-2022. PNSC's collaboration with Heavy Industry Texla (HIT) for shipping arrangements for Break Bulk and Containerized shipments is expected to enhance its position in the commercial market.

Financial Risk

Working Capital During FY21 working capital needs were low. In line with the Shipping Industry dynamics, PNSC's working capital management comprises need for funding receivable and payable days only. The Corporation meets its working capital needs from internal cash flow generation. A well-balanced cash conversion and payment cycle exists within the business model as evident from its impressive gross working capital days (3MFY22: 17 days, FY21: 27 days) and net working capital days (3MFY22: 12 days, FY21: 17 days).

Coverages During FY21 PNSC's cashflows (FCFO) decreased by 26.8% YoY. Post covid19 AFRA rates settled down and directly impacted the business. However, in 1QFY22 company reported positive results and FCFO's showed a growth of 22.4%. Debt Coverages were improved slightly to 2.1 in FY21 from 2.0 in FY20. Interest coverages remained volatile yet comfortable and improved significantly on back of low finance cost. (Interest Coverage: FY21: 6.6x, FY20: 4.4x, FY19: 7.6x).

Capitalization PNSC paid dividend worth of PKR~289mln in FY21. The corporation had a low leveraged structure, the spike in FY19 is because company secured loan for expansion in fleet. However, PNSC made the repayments regularly and the leveraging which stands at 21.8% at end Jun-19 is reduced to 14.5% at end Jun-21. And further reduced to 13.8% by end of first quarter of FY22 depicting a strong financial profile.

Credit Rating

Credit rating reflects forward-looking opinion on credit worthiness of underlying entity or instrument; more specifically it covers relative ability to honor financial obligations. The primary factor being captured on the rating scale is relative likelihood of default.

Scale	Long-term Rating Definition
AAA	Highest credit quality. Lowest expectation of credit risk. Indicate exceptionally strong capacity for timely payment of financial commitments
AA+	
AA	Very high credit quality. Very low expectation of credit risk. Indicate very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.
AA-	
A+	
A	High credit quality. Low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be vulnerable to changes in circumstances or in economic conditions.
A-	
BBB+	
BBB	Good credit quality. Currently a low expectation of credit risk. The capacity for timely payment of financial commitments is considered adequate, but adverse changes in circumstances and in economic conditions are more likely to impair this capacity.
BBB-	
BB+	Moderate risk. Possibility of credit risk developing. There is a possibility of credit risk developing, particularly as a result of adverse economic or business changes over time; however, business or financial alternatives may be available to allow financial commitments to be met.
BB	
BB-	
B+	
B	High credit risk. A limited margin of safety remains against credit risk. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.
B-	
CCC	Very high credit risk. Substantial credit risk “CCC” Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic developments. “CC” Rating indicates that default of some kind appears probable. “C” Ratings signal imminent default.
CC	
C	
D	Obligations are currently in default.

Scale	Short-term Rating Definition
A1+	The highest capacity for timely repayment.
A1	A strong capacity for timely repayment.
A2	A satisfactory capacity for timely repayment. This may be susceptible to adverse changes in business, economic, or financial conditions.
A3	An adequate capacity for timely repayment. Such capacity is susceptible to adverse changes in business, economic, or financial conditions.
A4	The capacity for timely repayment is more susceptible to adverse changes in business, economic, or financial conditions. Liquidity may not be sufficient.

**The correlation shown is indicative and, in certain cases, may not hold.*

Outlook (Stable, Positive, Negative, Developing) Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. ‘Stable’ outlook means a rating is not likely to change. ‘Positive’ means it may be raised. ‘Negative’ means it may be lowered. Where the trends have conflicting elements, the outlook may be described as ‘Developing’.

Rating Watch Alerts to the possibility of a rating change subsequent to, or, in anticipation of some material identifiable event with indeterminable rating implications. But it does not mean that a rating change is inevitable. A watch should be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating watch may accompany rating outlook of the respective opinion.

Suspension It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn.

Withdrawn A rating is withdrawn on a) termination of rating mandate, b) the debt instrument is redeemed, c) the rating remains suspended for six months, d) the entity/issuer defaults., or/and e) PACRA finds it impractical to surveil the opinion due to lack of requisite information.

Harmonization A change in rating due to revision in applicable methodology or underlying scale.

Surveillance. Surveillance on a publicly disseminated rating opinion is carried out on an ongoing basis till it is formally suspended or withdrawn. A comprehensive surveillance of rating opinion is carried out at least once every six months. However, a rating opinion may be reviewed in the intervening period if it is necessitated by any material happening.
