Rating Rationale and Key Rating Drivers

The ratings reflect the regulated structure of Lalpir Power Limited (Lalpir Power) business; whereby revenues and cash flows are guaranteed by the sovereign government given adherence to agreed operational parameters. A risk of any decrease in efficiency factor against required benchmark would be borne by the Company itself given the fact, Lalpir Power is managing its operations and maintenance (O&M) in-house. Business risk is considered low exhibited by demand risk coverage under Power Purchase Agreement signed between Power purchaser and the company. Topline of the company has decreased, owing to lower power generation during the period demanded by power purchaser amid to better energy mix. Receivable days has increased during 1HYCY19 owing to the delay in timely receipt of receivables. Settlement of overdue receivables is crucial. Lalpir Power has been paying dividend which in times of need is an internal source of liquidity available. Lalpir Power repaid its long term project debt in 2010. Current borrowings mainly short-term reflects the need to bridge the working capital requirements and maintenance of projects. Because of the mounting receivables and consequent funding thereof from banking lines, there is minimal cushion in the available working capital facilities as it has been highly utilized as at end-June19, warranting management's immediate attention. The management is harnessing internal resources for working capital funding and if need be may be resorting to enhance external lines.

Company has cancelled its plan of converting the Lalpir Power plant from oil fired to coal fired boiler, owing to the government policy to restrict use of imported coal on certain projects only.

Upholding operational performance in line with agreed performance levels would remain a key rating driver. Meanwhile, any significant increase in overdue receivables, as a result of rising circular debt, coupled with insufficient available working capital financing, in turn weakening in financial risk profile may negatively impact the ratings.

The Pakistan Credit Rating Agency Limited

Profile

Plant Lalpir Power Limited (Lalpir Power) commissioned a thermal power plant on a build-own-operate (BOO) basis with a capacity of 362 MW based on residual fuel power (RFO).

Tariff Lalpir Power has a generation tariff (levelized tariff for years 1-30) of US 5.7cents/Kilowatt hour (KWh), approved by National Electric Power Regulatory Authority (NEPRA).

Return On Project There is no IRR of Lalpir Power plant with reference of Power Purchase Agreement.

Ownership

Ownership Structure The Company is majority owned by Nishat Group and The City Schools. The shareholding is dominated by Nishat Group that collectively own 44.6% of the shareholding, followed by City Schools through Engen (Pvt.) Ltd (18.17%). Financial Institutions hold (10.89%) and others hold (8.07%).

Stability Stability in the IPPs is drawn from the agreements signed between the company and power purchaser. However, sponsors association with Nishat group will continue to provide comfort.

Business Acumen Nishat Group is a distinguished business group in Pakistan. The emergence of the Group, as a conglomerate, spans over fifty years with interests in textile, cement, insurance, power and financial sectors.

Financial Strength The financial strength of the sponsors is considered strong as the sponsors have well diversified profitable businesses.

Governance

Board Structure Lalpir Power's board consists of seven members. The board is majority controlled by Nishat Group, with a total of five nominated members including the chairman Mr. Hassan Mansha.

Members' Profile Board members are from different educational and professional background bringing diversified professional experience and knowledge on the board.

Board Effectiveness For effective oversight of the matters the board has formed two board committees, the Audit Committee and Human Resource & Remuneration Committee. The chairman of the Audit, HR and Remuneration committee is an independent director in accordance with the code of corporate governance.

Financial Transparency Riaz Ahmad & Company is external auditors of the company. They expressed an unqualified opinion on the company's financial statements for the period ending June 30, 2019.

Management

Organizational Structure The Company has largely a flat organizational structure. The CEO, Plant Manager and CFO report directly to the Chairman of the board. Lalpir has a technical team with well-defined roles that ensures a smooth flow of operations.

Management Team Mr. Mehmood Akhtar is the CEO of company. He has over 35 years of managerial experience spread across various industries. Moreover, he also serves on the Board of Pakgen Power Limited.

Effectiveness Lalpir Power management effectiveness plays a significant role in empowering the organization through positive results, which has made decision making process systematic.

Control Environment The Company maintains an adequate MIS reporting system for the management to keep track of all operating activities and operational efficiencies. The system generates daily and monthly reports containing information on production, inventory and efficiency maintained. The Company uses in-house built software to generate these reports.

Operational Risk

Power Purchase Agreement Lalpir Power's key source of earnings is the revenue generated through sale of electricity to the power purchaser, CPPA-G. The Company will receive the capacity payments if it is at the benchmark availability and is ready to provide electricity, even if no purchase order is placed by Power Purchaser.

Operation And Maintenance Lalpir Power O&M activities are handled by an in house team trained under the expertise of AES, former O&M operator. This team is involved in O&M activities since the plant's COD and hence carries significant experience

Resource Risk The Company has engaged Pakistan State Oil (PSO) – the largest local oil-marketing company - as the fuel supplier. PSO is responsible for supplying Residual Fuel Oil (RFO) under the Fuel Supply Agreement (FSA) for 30 years and ensure delivery as agreed upon by both parties. Further fuel is also purchased from other OMC's as required.

Insurance Cover Lalpir Power has significant insurance coverage for property damage and business interruption. The insured values for damages include a property damage cover (upto PKR 51bln) & business interruption cover (up to PKR 4bln).

Performance Risk

Industry Dynamics Pakistan total power generation is increasing on the back of new power projects under CPEC. Going forward, cheap renewable electricity will be a challenge to viability of thermal power plants.

Generation The Company has generated 270GWh of electricity during HCY19 as compared to 524GWh during the corresponding period of previous financial year. This resulted in 17.70% Actual Capacity Factor during the respective time period (HCY18: 34.50%).

Performance Benchmark During HCY18, Lalpir Power has made an operating profit of ~PKR 1,734mln (CY18: PKR 1,668mln; CY17: PKR 1,618mln), as Lalpir's cost of sales during HCY18 stood at PKR 5,169mln (HCY18: PKR 7,717mln) due to the lower electricity generation as a result of reduction in power demand by CPPA. Turnover has not reduced in line with cost of sales (HCY19: PKR 7,023mln; HCY18: PKR 8,796mln) as the tariff has increased from due to increase in exchange rate. Hence on account of trickledown effect of reduction in cost of sales, Lalpir's profitability has increased to PKR 1,050mln (HCY18: PKR 599mln).

Financial Risk

Financing Structure Analysis The total Lalpir Power project's cost was US\$ 347mln. The project financing capital structure comprised 27% equity (US\$ 94mln) and 73% debt (US\$ 253mln), as on Nov 97, mainly financed by a consortium of IFC – USA and Bank of Tokyo – Mitsubishi Ltd, Japan. The total project related debt remained completely paid by the Company.

Liquidity Profile Lalpir's total receivables reached at PKR 16,102mln as of HCY19 (CY18: PKR 13,659mln) out of which PKR 11,624mln (~72%) are overdue by more than 90 days. As circular debt continues to be an issue for companies operating in power sector. Consequently, IPPs have to manage their liquidity requirements through short-term borrowings.

Working Capital Financing Payments from power purchaser remained at low pace. Resultantly during HCY19 receivable days increased to 418 days as compared to 296 days as of CY18. Therefore, company's cash cycle days as of HCY19 has increased to 414 days (CY18: 266 days) respectively. However to manage its working capital requirements and BMR purposes, the Company has procured working capital lines of PKR 14,078mln in HCY19 out of which 97.8% has been utilized (CY18: 75.6% utilization) the company has been meeting its cash requirements mainly through short term borrowing (STB) on account of trickledown effect of increased receivables.

Cash Flow Analysis Free Cash Flow of the company for HCY18 was PKR 2,272 (CY18: PKR 2,754mln; CY17: PKR 2,685mln). Owing to stable cash flows, Company's debt coverage (FCFO pre WC / Gross Interest + CMLTD) improved during HCY18 at 3.03x (CY18: 2.31x; CY17: 2.08x).

Capitalization The Company currently has a moderately leveraged capital structure comprises 52% debt as at HCY19 (CY18: 47%). As of HCY19, STD comprises 100% (PKR 14,775mln)(CY18: 100%) of total debt. Leveraging depicts a continued upward trend respectively, as the Company's entire debt represents short-term financing facilities for working capital management. The long-term loan has been fully paid off as at HCY19.

Credit Rating Scale & Definitions

Credit rating reflects forward-looking opinion on credit worthiness of underlying entity or instrument; more specifically it covers relative ability to honor financial obligations. The primary factor being captured on the rating scale is relative likelihood of default.

Long Term Ratings		Short Term Ratings	
AAA	Highest credit quality. Lowest expectation of credit risk. Indicate exceptionally strong capacity for timely payment of financial commitments	A1+	The highest capacity for timely repayment.
AA+ AA AA-	Very high credit quality. Very low expectation of credit risk. Indicate very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.	A1	A strong capacity for timely repayment.
A+ A A-	High credit quality. Low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be vulnerable to changes in circumstances or in economic conditions.	A2	A satisfactory capacity for timely repayment. This may be susceptible to adverse changes in business, economic, or financial conditions.
BBB+ BBB BBB-	Good credit quality. Currently a low expectation of credit risk. The capacity for timely payment of financial commitments is considered adequate, but adverse changes in circumstances and in economic conditions are more likely to impair this capacity.	A3	An adequate capacity for timely repayment. Such capacity is susceptible to adverse changes in business, economic, or financial conditions.
BB+ BB BB-	Moderate risk. Possibility of credit risk developing. There is a possibility of credit risk developing, particularly as a result of adverse economic or business changes over time; however, business or financial alternatives may be available to allow financial commitments to be met.	B	The capacity for timely repayment is more susceptible to adverse changes in business, economic, or financial conditions.
B+ B B-	High credit risk. A limited margin of safety remains against credit risk. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.	C	An inadequate capacity to ensure timely repayment.
CCC CC C	Very high credit risk. Substantial credit risk “CCC” Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic developments. “CC” Rating indicates that default of some kind appears probable. “C” Ratings signal imminent default.		
D	Obligations are currently in default.		

Outlook (Stable, Positive, Negative, Developing) Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. ‘Stable’ outlook means a rating is not likely to change. ‘Positive’ means it may be raised. ‘Negative’ means it may be lowered. Where the trends have conflicting elements, the outlook may be described as ‘Developing’.

Rating Watch Alerts to the possibility of a rating change subsequent to, or in anticipation of, a) some material identifiable event and/or b) deviation from expected trend. But it does not mean that a rating change is inevitable. A watch should be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating Watch may accompany Outlook of the respective opinion.

Suspension It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn.

Withdrawn A rating is withdrawn on a) termination of rating mandate, b) cessation of underlying entity, c) the debt instrument is redeemed, d) the rating remains suspended for six months, e) the entity/issuer defaults, or/and f) PACRA finds it impractical to surveil the opinion due to lack of requisite information.

Harmonization A change in rating due to revision in applicable methodology or underlying scale.

Disclaimer: PACRA’s ratings are an assessment of the credit standing of entities/issue in Pakistan. They do not take into account the potential transfer / convertibility risk that may exist for foreign currency creditors. PACRA’s opinion is not a recommendation to purchase, sell or hold a security, in as much as it does not comment on the security’s market price or suitability for a particular investor.

Rating Team Statements

(1) Rating is just an opinion about the creditworthiness of the entity and does not constitute recommendation to buy, hold or sell any security of the entity rated or to buy, hold or sell the security rated, as the case may be | Chapter III; 14-3-(x)

2) Conflict of Interest

- i. The Rating Team or any of their family members have no interest in this rating | Chapter III; 12-2-(j)
- ii. PACRA, the analysts involved in the rating process and members of its rating committee, and their family members, do not have any conflict of interest relating to the rating done by them | Chapter III; 12-2-(e) & (k)
- iii. The analyst is not a substantial shareholder of the customer being rated by PACRA [Annexure F; d-(ii)] Explanation: for the purpose of above clause, the term "family members" shall include only those family members who are dependent on the analyst and members of the rating committee

Restrictions

- (3) No director, officer or employee of PACRA communicates the information, acquired by him for use for rating purposes, to any other person except where required under law to do so. | Chapter III; 10-(5)
- (4) PACRA does not disclose or discuss with outside parties or make improper use of the non-public information which has come to its knowledge during business relationship with the customer | Chapter III; 10-7-(d)
- (5) PACRA does not make proposals or recommendations regarding the activities of rated entities that could impact a credit rating of entity subject to rating | Chapter III; 10-7-(k)

Conduct of Business

- (6) PACRA fulfills its obligations in a fair, efficient, transparent and ethical manner and renders high standards of services in performing its functions and obligations; | Chapter III; 11-A-(a)
- (7) PACRA uses due care in preparation of this Rating Report. Our information has been obtained from sources we consider to be reliable but its accuracy or completeness is not guaranteed. PACRA does not, in every instance, independently verifies or validates information received in the rating process or in preparing this Rating Report.
- (8) PACRA prohibits its employees and analysts from soliciting money, gifts or favors from anyone with whom PACRA conducts business | Chapter III; 11-A-(q)
- (9) PACRA ensures before commencement of the rating process that an analyst or employee has not had a recent employment or other significant business or personal relationship with the rated entity that may cause or may be perceived as causing a conflict of interest; | Chapter III; 11-A-(r)
- (10) PACRA maintains principal of integrity in seeking rating business | Chapter III; 11-A-(u)
- (11) PACRA promptly investigates, in the event of a misconduct or a breach of the policies, procedures and controls, and takes appropriate steps to rectify any weaknesses to prevent any recurrence along with suitable punitive action against the responsible employee(s) | Chapter III; 11-B-(m)

Independence & Conflict of interest

- (12) PACRA receives compensation from the entity being rated or any third party for the rating services it offers. The receipt of this compensation has no influence on PACRA's opinions or other analytical processes. In all instances, PACRA is committed to preserving the objectivity, integrity and independence of its ratings. Our relationship is governed by two distinct mandates i) rating mandate - signed with the entity being rated or issuer of the debt instrument, and fee mandate - signed with the payer, which can be different from the entity
- (13) PACRA does not provide consultancy/advisory services or other services to any of its customers or to any of its customers' associated companies and associated undertakings that is being rated or has been rated by it during the preceding three years unless it has adequate mechanism in place ensuring that provision of such services does not lead to a conflict of interest situation with its rating activities; | Chapter III; 12-2-(d)
- (14) PACRA discloses that no shareholder directly or indirectly holding 10% or more of the share capital of PACRA also holds directly or indirectly 10% or more of the share capital of the entity which is subject to rating or the entity which issued the instrument subject to rating by PACRA; | Reference Chapter III; 12-2-(f)
- (15) PACRA ensures that the rating assigned to an entity or instrument is not be affected by the existence of a business relationship between PACRA and the entity or any other party, or the non-existence of such a relationship | Chapter III; 12-2-(i)
- (16) PACRA ensures that the analysts or any of their family members shall not buy or sell or engage in any transaction in any security which falls in the analyst's area of primary analytical responsibility. This clause shall, however, not be applicable on investment in securities through collective investment schemes. | Chapter III; 12-2-(l)
- (17) PACRA has established policies and procedure governing investments and trading in securities by its employees and for monitoring the same to prevent insider trading, market manipulation or any other market abuse | Chapter III; 11-B-(g)

Monitoring and review

- (18) PACRA monitors all the outstanding ratings continuously and any potential change therein due to any event associated with the issuer, the security arrangement, the industry etc., is disseminated to the market, immediately and in effective manner, after appropriate consultation with the entity/issuer; | Chapter III | 18-(a)
- (19) PACRA reviews all the outstanding ratings on semi-annual basis or as and when required by any creditor or upon the occurrence of such an event which requires to do so; | Chapter III | 18-(b)
- (20) PACRA initiates immediate review of the outstanding rating upon becoming aware of any information that may reasonably be expected to result in downgrading of the rating; | Chapter III | 18-(c)
- (21) PACRA engages with the issuer and the debt securities trustee, to remain updated on all information pertaining to the rating of the entity/instrument; | Chapter III | 18-(d)

Probability of Default

(22) PACRA's Rating Scale reflects the expectation of credit risk. The highest rating has the lowest relative likelihood of default (i.e, probability). PACRA's transition studies capture the historical performance behavior of a specific rating notch. Transition behavior of the assigned rating can be obtained from PACRA's Transition Study available at our website. (www.pacra.com). However, actual transition of rating may not follow the pattern observed in the past | Chapter III | 14-(F-VII)

Proprietary Information

(23) All information contained herein is considered proprietary by PACRA. Hence, none of the information in this document can be copied or, otherwise reproduced, stored or disseminated in whole or in part in any form or by any means whatsoever by any person without PACRA's prior written consent
